VOL. XXV BELLEFONTE, PA., THURSDAY MORNING, MAY 23, 1894. NO 21

WASHINGTON LETTER.

Washington, May, 21, 1894
(From Our Regular Correspondent.)

Perhaps it may be true, as has been constantly reiterated, that Mr. Stevenson is not particularly friendly toward Mr. Cleveland and his administration, but his selection of the democratic members of the Senate committee that today began a star chamber investigation of numerous charges of crookedness against Senators and outsiders, beginning with the cock and bull story concerning an attempt having been made to bribe Senators Hunton, of Va., and Kyle, of S. Dak., to vote against the tariff bill, and including the charges against democratic Senators of having speculated in sugar trust stock and of having given the sugar trust protection in exchange for its big contribution to the Cleveland campaign fund, makes him appear very friendly indeed towards the administration.

For instance, Senator Gray, chairman of the committee, is known as chief of the Senate "cuckoos," and a man who would do more for the administration than any other Senator, while Senator Lindsay, the other democratic member of the committee, is, in addition to being a cuckoo, known as Carlisle's man. The significance of these selections will not be underated when it is remembered that Secretary Carlisle, representing Mr. Cleveland, has been from the first to the last mixed up in all the dealings between the democratic Senators and the sugar trust Senator Mills, of Texas, has publicly stated that Secretary Carlisle gave the President of the sugar trust a letter of introduction to him and that he refused to see him when he called to present it. The democrats ask credit for being fair because Senator Allen, of Neb., was put upon the committee, but they do not deserve it, as Allen has voted with the democrats on all political questions and is regarded as a democrat, although he calls himself a populist. It is clear that if anything is shown up by this committee it will be through the energy of two republican members—Lodge, of Mass., and Davis, of Minn. But nothing can be shown up, unless witnesses choose to tell what they know, the supreme court having some years ago decided that a Congressional committee could not compel the m either to testify or to produce books dealing with a citizen's private affairs. That decision is a great consolation to more than one democratic Senator just now. Another consoling thing to certain democratic Senators was the decision by the committee to make the investigation secret, giving out from day to day only such information as Senator Gray may see fit. That means that the newspaper men will have to hustle to find out what is going on in that committee room, as Mr. Gray is one of those non-communicative Senators who regard newspapers as a kind of nuisance.

An amusing tidbit is going the rounds, recalling the old couplet

"A little nonsense now and then
Is relished by the wisest men."

During an executive session the other day when a discussion was going on over the confirmation of some nominations in which the republicans had no interest a number of them whiled away the time writing verses on the exhibition Senator Turpie, of Ind., made of himself recently by his uncalled for personal attack on Senator Aldrich. The venerable Senator Morrill, affectionately called the father of the Senate, started the amusement and soon a half dozen Senators were cudgeling their brains for rhymes. Senator Manderson's verse was unanimously voted the best. He wrote:

"Aldrich is a triple liar,
Said Turpie in a rage,
But Aldrich, without show of fire,
Said; "Turpie is no sage."
And into no abuse he sunk
In stating Turpie sure was drunk.

The republican Senators having concluded to hold their ammunition for big game, considerable progress has been made and will continue to be made in disposing of the unimportant items of the tariff bill, but the sugar schedule is regarded as the biggest of big game and when that is reached there is going to be fighting all along the line, and it will not be surprising if some democrats join with the republicans in trying to strike out the $50,000,000 which the proposed amendment to the sugar schedule will add each year to the cost of sugar consumed in this country. A number of republican Senators are prepared to fire some sensational facts at the democratic friends of the sugar trusts, and it is understood that Senator Hill will also have something to say on the same subject that will not make enjoyable reading for either Mr. Cleveland or Secretary Carlisle. It is expected that the sugar schedule will be reached by the end of this week.

Mr. Benedict broke the record Saturday at the Goverment Printing Office by discharging more than 700 people, about half of them women, and, of course, all of them republicans. The number will probably be duplicated within ten days.

The Bituminous Coal Strike.

The Cleveland conference between bituminous coal miners and operators has failed to settle the disagreement as to wages, and nothing now remains but the slow grinding out of economic causes, in which wages at the mines where coal costs most per ton to mine will be forced down to a rate at which competition with more favored mines is possible.

The great coal mine strikes which from time to time convulse all mining disiricts are simply due to the fact that every time a mine is opened or a new district tapped where coal, owing to thick seams or other causes, can be got with less blows of the pick and less exertion and expense, both wages and profits at dearer points are cut down by the competition. The inexorable working of this law in the anthracite region has led on one side to the bankruptcy of the Reading and the difficulties of other coal roadsand to the low wages of the men.

The "scale" of mining wages proposed at Cleveland is an attempt, by varying the price paid per ton in different parts of the coal field, to arrange matters so that the amount a man earns by a day's labor and the price at which the coal is sold can be about the same. In other words, it is an attempt to "pool" the differences between the districts which would make the coal of one cheaper than the other, if all paid the same price per ton for mining.

The scale, in some shape, has been running since 1871; but, to go back no further than 1890, the scale then adopted was 79 cents for the Pittsburg and 70 cents for the Hocking Valley. This was 10 cents lower than the miners' demand and 5 cents higher than the Hocking price and 6 cents higher than the Pittsburg price in 1889. In 1891 the same rate was adopted, and, in spite of a strike in November 1891, the miners accepted the 79 cent rate in Pittsbutg and rates on this basis elsewhere.

Protesting Against Supt. Shaeffer.

Members of the Junior Order of American Mechanics talk of a crusade against Superintendent of Public Instruction Schaeffer on account of his atand in the suit against the school board at Gallitzin for employing nuns as public school teachers. Prior to the agitation of the question at Gallitzin Dr. Schaeffer received a letter from Mrs. Laura J. Hysong, a resident of that place, protesting against the employment of nuns as teachers. He replied to her in a letter defending the action of the school board, and now another fight is on hand. Members of the patriotic orders have taken the subject up and protesting against Mr. Shaeffer's retention as state superintendent, alleging that if he entertains opinions favorable to the employing of sectarian school teachers of no matter what religious belief he is not a fit person for superintendent of public schools. When Dr. Schaeffer's attention was called to this yesterday by a representative of the Patriot he said: "While the matter is in the courts I prefer not to say anything about the trouble at Gallitzin. In due time my views will be made known to the public."—Harrisburg *Patriot*.

Long Wait for a Pension.

With a dozen other old soldiers, John Tuhuy, aged 77, a veteran of the Ninth New York regiment, was waiting at Niles, O., for a train to the state encampment in Canton, when Tuhuy told of losing his discharge papers ten years ago. He could get no pension, although twice wounded in battle, and is indigent.

Druggist Stone, of Mineral Ridge, overheard this. A woman ten years ago had left with him a soldier's discharge papers, for which no one called. He sent for them, found Tuhuy was the owner, and much astonished the old man by giving him them. He is reasonably certain of a pension now.

THE farmers of Chester county given to dairy pursuits are very much interested in the movement opposing the repeal of the existing oleo law and the grangers in the adjoining county of Delaware have united with them in a decision to support only such candidates for the Legislature as will give a pledge to stand by the law. Oleo as a campaign issue is something unique, but the farmers of Chester and Delaware believe in pure food bills and protection to home industry no matter how the situation strikes other sections. In the meantime the oleo candidates are racing for the places with due regard for the power of those back of the oleo issue.

A new invention which will be welcomed by railway travelers is a "station indicator." It is fixed to the roof of the coach and records the name of the coming station, an electric bell notifying the passengers of each alteration. The present system of announcing stations is unsatisfactory because of the indistinct utterance of the brakemen or the defective lighting of the station.

Flood and Destruction.

THE WATER HIGHER HERE THAN IN JUNE, 1889.

A Lot of Property Destroyed.

The Rain, Which Has Fallen Since Friday Caused a Terrible Flood.
Railroad Traffic Blocked.
Bridges Swept Away.
Cellars Filled Up, Etc.

[From Monday's Daily News.]

With the exception of loss of life and general destruction of property in the Conemaugh Valley the flood of May, 1894, will be recorded in history as as great, if even not more disastrous, than the great flood of June, 1889. Throughout the Central countries of Pennsylvania the waters have been higher by two feet than they were five years ago. It has been raining off and on for a week or more, but from Friday evening until Sunday morning the rain descended in perfect torrents—indeed, it seemed as if the heavens had opened and the clouds were coming down in bunches.

Sunday morning the rivers and creeks were swollen, but the raise in Spring Creek was not over two feet until near ten o'clock. Then the waters began to rise rapidly and from that on till noon they came up over a foot an hour, until the creek was considerable higher than it ever was known to be, being within a few feet of the High Street bridge. The breaking of the Rock mill dam precipitated a perfect avalanche down the creek which swept everything before it as it came tearing down stream. Fences, foot bridges, outbuildings logs and lumber of every description was piled up against the railroad bridge south of the depot. The water flooded Water street to the depth of several feet and carried away a large portion of the boardwalk leading out to the big spring. The new boardwalk down to the Central railroad depot was considerably washed out and, had it not been that it was so securely tied, it would probably have gone, too. The raging current tore the corner off the [illegible] Machine Works building, now occupied by the Steam Laundry, and washed away about eight tons of coal. A small quantity of lumber was washed away from the yard of the Phoenix plaining mill company. On down the creek, several large piles of lumber from the yard of Crider & Son, aggregating about 75,000 feet, were carried away; the foot bridge went next, then the railroad bridge across to Morris, limekilns, and last the county iron bridge by the nail works. In addition to the other lumber Crider had about $600 worth of unsawed shingle bolts washed away. The biggest pile of this debris found lodgment against the railroad bridge crossing the creek down by the toll gates.

In addition to what was swept away here the water rose to a depth of almost four feet in the press room of the *Watchman* office and about three feet deep in the NEWS office. The race embankment by Gerberick's mill was washed away after flooding and doing considerable damage at the mill.

Through Bald Eagle valley the water was reported not as high as it has been in the past, but high enough to wash away fences and some few small bridges. Central City was all under water and much damage was done to property owners. On down the valley little damage has been reported and very little inconvenience suffered until at Mill Hall, where everything is overflowed and all kind of traffic suspended.

Down Pennsvalley the waters have reached a great height, Spring Mills and Coburn reporting it two feet higher than in 1889. At Spring Mills the railroad bridge and tressle are badly washed out, and on down the road there are several other washouts and bridges gone, so that traffic is entirely blocked on that road. It may be several days before trains can run over this line. Aside from the general destruction of fences and small bridges and the unlimited damage to farms, no other destruction is reported from this locality.

Along the line of the new Central railroad of Pennsylvania several washouts are reported, but no bridges gone. No passenger train was sent over the road this morning but it is thought the line can be gotten in shape to run a train this evening.

On the Bellefonte Central there are a few washouts and a number of washins, the track being covered some places to the depth of four feet with mud and stones and general debris. No train was sent over that line this morning, but as a force of fifty men have been at work there since Sunday noon, it is expected that trains can be run this afternoon.

The only train that reached Bellefonte this morning was the mail from Tyrone. It came in about ten minutes late and proceeded on down the valley. It will run probably as far as Mill Hall.

From all over the county comes word of a great storm, high waters and general destruction of property which, however, cannot be estimated in dollars and cents, but thus far we have heard of no fatalities. This, at least, is one thing to be thankful for.

NOTES PICKED UP.

Fully three thousand people were at the creek Sunday watching the raging waters.

Mr. Terry, miller at Jackson's mill, while attempting to raise the flood gates in the dam, was precipitated into the water up to his neck. He got out all right.

Sunday afternoon Rev. J. A. Woodcock and son Lee started to drive to Milesburg. At the little bridge this side of the chain works the horse frightened and jumped to one side throwing Mr. Woodcock into the race waist deep in water. He scrambled out and then drove back home.

Joe Montgomery had a large number of empty coal oil barrels to float away from his oil house round the hill, but succeeded in hauling the most of them out of the creek at the railroad bridge and carting them down to his coal yard.

The water was high enough to flood Ed. K. Rhoads' coal yard and also his scales and this morning a force of men were put to work to take the latter up and clean them out thoroughly. It proved quite a job before they were through with it.

This is the first time since the location of the NEWS in this building that this office has been flooded, and we earnestly hope it will be the last time. On the water receding it left about six inches of mud on the floor, through which was scattered wood tipe, sticks and stones, coal and almost everything else but money. It has proven a big task to get the room and presses in condition to issue to-day's paper, but a newspaper man must never stop for such trifles as water and mud. It takes more than that to prove an insurmountable obstacle to the most of us.

Charles Shearer, the blacksmith in the rear of the *Republican* office, lost pretty heavily. The waters washed about three tons of coal he had laid in to keep him running during the strike, and in addition washed away a large quantity of horseshoes. Mr. Shearer can ill afford his loss.

Since the above report was put in type the train on the Lewisburg railroad which left Bellefonte this morning has returned, arriving here at 12 o'clock. They met the other train at Rising Springs and made a transfer of passengers, U. S. mails, Express packages, etc.

There being no train to State College today a special messenger was dispatched from the College at 12.30 to bring the college mail to Bellefonte and take the mail for the College back. Verily this kind of proceeding is much like the days of star routes and Indian ponies.

In addition to the great damage done everywhere else, the roads have also suffered in like proportion. Mr. Charles F. Cook informs us that the pike from Bellefonte to the top of the mountain side of Centre Hall is in a terrible condition and he estimates that it will cost all of one thousand dollars to put it in as good shape as it was before the flood.

The Tyrone train this morning only ran to Mill Hall and then returned. It was impossible to reach Lock Haven for water. The Bald Eagle road bed is not damaged to any great extent, and as soon as the water falls trains will run as usual. All trains will likely be running by Wednesday.

During the highest part of the flood Sunday it was with the greatest difficulty the store and ice cream parlor of Calvin Ray, on Water street, was kept from floating away. It was tied securely and a half a dozen men constantly guarded it to keep drifting logs, etc., from striking it too heavily.

At this writing the waters have fallen so as to be low enough not to do any more damage, but it will be two days yet before they will reach their normal level.

THE eyes of the country may centre upon the Eighteenth Ohio district this year, if the Populists make good their guarantee of an exciting campaign, for this is the district in which that unique Commonwealer, General Coxey, has decided to run for Congress, but then, again, the eyes of the country may catch upon better employment and not give Coxey more than a passing thought while in pursuit of his mission. The district gave Dr. Ikert a Democratic majority of 1,211 two years ago in a total vote of 46,849, and the Populist candidate then had 1,218 votes, or less than three per cent. of the whole number. If Ohio voters have so far revised their opinion as to give Coxey twenty Populist votes where one was cast in 1792, the country will change its views touching that State. Coxey's platform finds no indorsement in the East, and Ohio is generally on the side of sound government.

The Storm Elsewhere.

WILLIAMSPORT FLOODED THIRTY-THREE FEET.

The Conemaugh Overflowed.

Reports from Everywhere Are of High Water Unprecedented.
Railroad Traffic Suspended.

WILLIAMSPORT, Pa., May 20.—This city is passing through a state of flood excitement unequalled since the memorable June 1, 1889, when the river reached the unprecedented height of thirty-three and one half feet and inundated two-thirds of the city. For forty-eight hours past rain has been falling heavily throughout the West Branch watershed, and to-night the river is twenty-one feet high and rising rapidly. The conditions are shrouded in such uncertainty that no man can predict what the night will bring forth and the wildest and most extravagant rumors are afloat. Profiting by the experience of five years ago, those in prospective danger have spent the day removing their effects to places of safety, and this Sunday has been a bedlam in Williamsport. The city never experienced a livelier day. The scenes that were witnessed baffled description. Thousands of men worked like beavers removing goods to high ground or to the upper stories of buildings and the rumble of heavy wheels, the shouts of excited men and the ringing of alarm bells broke the Sabbath stillness and made the day a wierd one indeed. Such a topsy turvy condition of household goods and merchandise in store rooms was never before witnessed here.

It has been found necessary to remove the records from the court house, in order that there may be no danger of these precious documents being destroyed.

The situation to-night is discouraging, to say the least, for the rain is still falling and all the streams west of the city are raging torrents. At least 10,000,000 feet of logs have gone down the river, but the big boom, with its 150,000,000 feet, remains intact. West of here many of the streams are as high or higher than in 1889.

At Philipsburg the water is reported higher than it was in 1889.

At Clearfield the Beech Creek railroad station is inundated, but up to this hour the water is not up to the mark it reached in 1889. General Superintendent Plaines, of the Beech Breek road, has been over the line making efforts to save property from destruction. Several bad washouts have occurred. Two passenger trains and five freight trains are blocked by a landslide between Blackwell and Ansonia, a distance of ten miles.

No passenger trains have gone east over the Philadelphia and Erie to-day.

The Curwensville boom, containing 15,000,000 feet of logs and the Lock Haven boom, with 4,000,000 feet have broken and the logs have gone adrift.

At Lock Haven at 7 o'clock this evening the water is four and one-half feet high in Water street and raising one foot an hour.

In Williamsport to-day no services were held in the churches and the people have congregated near the bank. The telegraphic communication is greatly interfered with, but some wires are still working.

At Jersey Shore the people have moved their household goods to the second floors, the water in some places being eighteen feet high.

RAGING WATERS AT JOHNSTOWN.

JOHNSTOWN, Pa. May 20.—Not since the great flood of 1889 have the people of Johnstown been so much concerned as they were last night on account of the heavy rains and the rise of the Conemaugh river and Stony Creek. Both of these streams are above their banks in several places. In some parts of this city the overflow is growing serious and unless the rainfall slackens hundreds of homes will be damaged. The street railway people are already threatened, the tracks being under water in two or three places. The Cambria Iron works are also in peril. In spite of the heavy rain thousands of people are out watching the mad rush of water ni the Conemaugh and Stony Creek. There is a possibility that the main portion of the city will be submerged, in in which event great damage to property may be expected.

JOHNSTOWN, May, 21—2:20 a. m.—The Conemaugh river is overflowing and people are fleeing for their lives. The water in front of the Western Union Telegraph office is three and one-half feet deep.

GREAT FLOOD IN THE JUNIATA VALLEY.

Huntingdon, Pa., May 20.—To-day's great flood has been exceeded only once in the history of the Juniata valley, the last four days rainfall having raised the Juniata river and Raystown branch twenty one feet above low water mark and entailing great destruction to property. In this place the waters flooded the lower streets, driving the people from their homes, and in the lower farming districts whole families are imprisoned in their houses, unable to be reached, owing to the turbulense of the streams.

Three new county bridges spanning the Juniata and Raystown branch have been swept away. The destruction of scores of minor bridges and washouts on public roads have closed all rural approaches to this place. The gas company's plant here is submerged and the lower floors of many business houses are flooded.

Mrs. Jacob Miller was drowned at Saxton while trying to save her properey.

A landslide at Ryde Station, on the Pennsylvania railroad, covered the track for a distance of nearly a mile, and a portion of the track was washed away. Great damage to property and farm lands along the Raystown branch is reported.

MUCH DAMAGE AT TYRONE.

Tyrone May 20.—Not since the disastrous flood of June 1, 1889, has Tyrone and vicinity been visited by as high waters. The incessant downpour of rain all day Saturday and up to 3 o'clock this morning, when the rain subsided, and the rising waters touched high mark, within three feet of the great flood. The low lands were completely flooded, residents thereof were driven from their homes, cellars and basements, particularly in the business part of the town, were filled with water, fences and outbuildings washed away, farm lands laid bare and road beds made uneven.

Fears of high water were entertained all day Saturday, as the waters in the Juniata were gradually rising, the Bald Eagle creek became more whd and the Dry run was emptying tons of the mountain stream overflow into the creek. The first to be inconvenienced by the rising waters were the merchants on Penusylvania avenue, from Jones & Caldwell's to the Blair county bank building and up the south side of Tenth street, who, about 7 o'clock on Saturday evening, [illegible] merchandise to places of safety.

R. C. Thompson, occupying the basement of the bank building as a barber shop, was the first to suspend business and remove his furniture. As the flood increased merchants on the north side of Tenth street and up Pennsylvania avenue to Twelfth street were obliged to remove their low placed goods.

Considerable difficulty was experienced in removing some families from their homes, among them that of D. T. Kennedy. Several attempts were made by means of wagons and rafts, but the strong current forbade their control and it was necessary for men, wading to their shoulders in water, to carry them out. Those residing along and near Park avenue were forced from their homes during the night.

About 2 o'clock the electric light plant was obliged to shut down, and about an hour later the supply of gas was discontinued.

The flood reached its height about 3 o'clock, afte which waters in the store rooms, basements and cellars began to recede, and about an hour later had fell below the level of the store floors on Tenth street, where a general removal of mud and debris commenced.

THE FLOOD AT HOLLIDAYSBURG.

Hollidaysburg, May 20.—On Saturday evening, as the almost unprecedented downpour of rain continued with unabated ardor, and as the raging Juniata seethed and foamed between its narrow banks, the waters becoming higher and higher every moment, every one thought of the memorable 31st of May, 1889.

HEAVIEST RAINFALL FOR YEARS

NORRISTOWN, Pa., May 20—The heaviest rainfall seen here for many years occurred yesterday afternoon, and the little village of Garfield Hollow was flooded. The rain fell for more than an hour in torrents, and Sawmill run was dammed up at the bridge.

The obstruction caused the water to back for several hundred feet, completely surrounding a half dozen homes. The families were imprisoned by water six feet deep and they rushed to the second floors of their homes. A crowd of 1,000 people lined the banks of the stream, supposing the flood would sweep away the frail houses. In some of them the water was three feet deep on the first floor. When the rain ceased the creek fell rapidly, and all danger was over.

It Is Foolish

To send for the doctor every time you don't feel just right. My doctor's bill for years was over a hundred dollars a year, which made a pretty big hole in my wages. For the past two years, I only spent ten dollars, with which I bought a dozen bot-Sulphur Bitters, and health has been in my family since using them.—Robert Johnson Machinist.

THE POWER OF ROME.

A Baltimore Methodist Preacher Says It Can Stop Strikes.

Baltimore, Md., May 15.—"Abhorrent and repugnant as such a confession is, I declare that to-day, in my opinion, the key of the turbulent situation in the industrial world has passed from the Protestant churches of our country into the hands of the Roman Catholic church."

Such were the words, delivered with all the emphasis of conviction of Rev. L. T. Townsend, D. D., at Mount Vernon Place M. E. church last night, his theme being, "Another Irrepressible Conflict"—the conflict referred to being that between law and order and the lawlessness of industrial armies, strikes and other communistic, socialistic and anarchistic movements.

"There was a time," he continued, 'not many years ago, when the Protestant churches, by harder work and larger outlays made to bring into the churches the un-Christian and lawless element of our population, could perhaps have averted the seething unrest and turbulence of the present time, but that day has passed. The hand of that powerful church is upon the walking delegates, the agitators, the turbulent elements themselves, and not only so, but that strong hand rests on the army, upon much of the state militia and upon the police of all great cities.

"If your pastor," continued Mr. Townsend, dramatically, "had the power of the highest Roman Catholic dignitary in this city, he could stop the coal strike in two days. Some will say, 'Oh, do not let them know their power for good or evil.' Do you suppose they do not know it? Whatever may be said of that mighty church, it could never be said that it was fool enough not to know its own power.

"But will it exert that power? you ask. Did you ever know it to do anything except for a consideration? Perhaps if the Protestants would become silent, the A. P. A. stop its work, and the public school money be divided with them, they might consent to close the coal strike, but such a cowardly surrender of principle, of the cause of education and religion, would make us deserve the scorn of our children's children. Some years ago Bismarck called on the Catholic church for help in some labor troubles.

"It compelled, and the Jesuits came back. Gladstone, who has made some of the most forcible utterances ever made against Romanism, called on it for help, and for years he has been strangely quiet. You all remember the famous draft riots in New York, when the government was powerless to preserve order, and its arm seemed paralyzed. Lincoln and Greeley went to Archbishop Hughes and begged him to interfere. At first he denied having the power. At length he spoke, and [illegible] restoration of order, when all other agencies were powerless."

Railroads to Consolidate.

Altoona, May 16.—E. A. Tennis, of Thompsontown, Pa., has been given the contract to build and equip the Bedford and Blair County Railroad, running from Cessna to Brook's Mills, a distance of 23 miles, with a branch extending from Ostenburg to Ashtola, Somerset county, a distant of 18 miles. The contract includes the roadbed, rolling stock, stations and telegraph lines, and the road is to be open for traffic by December 1, 1894. Work has already been commenced. The branch into Somerset county is for the purpose of development of coal and timber lands owned by a syndicate of Maine and Pennsylvania capitalists, headed by Theodore Gerrish, of Portland, who owns the majority of the stock. Hon. George B. Orlady, of Huntingdon, Pa., is President of the three companies recently chartered and owning the new line now being built. Friendly traffic arrangements will be made with the Pennsylvania Railroad Company.

It is reported that all of the new Blair and Bedford county railroads are on the eve of consolidation. A meeting of the Brook's Mills and Altoona Railroad Company will be held at Huntingdon Wednesday, June 23, for the consideration of an agreement of consolidation with the Bedford and Somerset Railroad Company, the Bedford and Blair County Railroad Company, and the Mann's Choice and Hyndman Railroad Company. The call for the meeting is issued by Samuel I. Spyker, Secretary.

Diminishing Number of Coxeyites

WASHINGTON, May 16.—The night and the forenoon passed at the Coxey camp at Bladensburg without incident except the continually diminishing number of the corraled tramps, the increase in the number of "drunks" and the continued absence of paying gate receipts. A brick oven has been constructed to bake into bread the car load of flour received from Missouri yesterday. The absence of President Cleveland from the city on his fishing trip and the consequent impossibility of recommissioning Judge Miller till this morning, will probably cause a delay of some days in passing sentences on the three convicted leaders. Coxey, Browne and Jones are determining what course shall be taken on their counsel's motion for a supersedeas.

Killed His Sheep.

On April 28th, dogs from Collins' furnace killed a sheep for Mr. Isaac Haupt on his farm in Benner township. On Thursday night four dogs from the same locality went up to the same farm and killed the balance of the flock, eleven sheep, making a full dozen all told. This will be a drain on the school funds of that township, as all sheep killed by dogs must be paid for by the treasurer of the school board.

MINERS AND OPERATORS.

Little Was Accomplished by the Cleveland Convention Yesterday.

Cleveland, O., May 16.—After the adjournment of the joint convention of miners and operators the conference committees met and discussed the situation. In answer to the proposition of the operators for a scale of sixty-five cents for Pennsylvania and fifty-eight for Ohio, President John McBride presented the proposition of the miners, which was the scale of last year—79 cents for Pennsylvania and all other sections to be adjusted on that basis. This would make the Ohio rate seventy cents. The conferees from the operators were not authorized to accept this proposition and the miners refused to hear the operators' rate. After several hours of fruitless discussion the committee adjourned to meet again to-morrow morning before the joint convention shall assemble.

The operators held a meeting to-night to hear the report of their conferees and consider the situation. While some of the operators express a hope that a settlement of the differences with the miners can be effected, the true state of affairs is that the two sides of the question are just as far apart to-night as they were two days ago. Patrick McBride informed the United Press correspondent that, incredible as it might seem, there were many of the operators who were not really desirous of a settlement at the present time. "Why," said Mr. McBride, "it is a positive fact that the Pennsylvania river operators have between 20,000,000 and 30,000,000 bushels of coal in transit between Pittsburg and Cincinnati, or in barges tied up against the river bank. Do you think they will break their necks trying to get the mines opened before the coal is marketed with prices climbing skyward every day? It is not human nature that they should."

A prominent operator stated candidly to the correspondent that as far as he was concerned, he was in no hurry for a settlement. He was asked if the iron interests were not demanding a settlement and stated they were not, but many of the iron manufacturers welcomed the pretext for shutting down their works in the present state of the iron trade.

How's This!

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Toledo O.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.
WEST & TRUAX, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Repairs on Pike.

The turnpike company from Centre Hall to Bellefonte have made a number of repairs on their pike and it is now in a first class condition. Along the mountain road above Centre Hall, at a very dangerous place where the road faces a steep embankment, a substantial railing has been built. Considerable work has been done and the road is the best in the county.

WOMEN MUST SLEEP.

SO SAYS MEDICAL AUTHORITY.

Serious Results of Sleeplessness, and the Way to Avoid It.

[SPECIAL TO OUR LADY READERS.]

If you are dangerously sick, what is the first duty of your physician? He quiets the frightened nervous system, he deadens the pain, and you sleep well.

Men fall by the wayside, victims of over-strained mental activity.

Friends ask, "What is it?" and the answer comes in pitying tones, nervous prostration.

Thousands of women tremble on the brink of the same precipice.

A little more pressure; some sudden grief, real or even imagined unkindness from loved ones, and over the brink fall one more victim of nervous prostration.

It came upon you so quietly, in the beginning, that you were not alarmed. But when sleep deserted you night after night, until your eyes fairly burned the darkness, then you tossed in nervous agony, praying for sleep.

You ought to have known when you ceased to be regular in your courses, and you grew so irritable without cause, that there was serious trouble somewhere.

You ought to be told that indigestion, exhaustion, womb displacements, fainting, dizziness, and backache send the nerves wild with affright, and you cannot sleep.

Want of sleep gives birth to a thousand morbid fancies of the brain.

Lydia E. Pinkham's Vegetable Compound for twenty years has saved women from all this misery. It is the certain cure for all derangements peculiar to women. It has saved them from torments for years, and it will save you. Go to your druggist at once: soon you will be well and sleep like a child.

FIFTY HORSES BURNED.

A Big Fire in New York Yesterday—Damage to the Amount of Over $200,000

NEW YORK, May 16.—Fire started in the wooden building enclosure known as Jones' Woods, A avenue and Sixty-eighth street, to-day, and spread over four blocks between Sixty-seventh and Seventy-first streets, A avenue and the East river. Over $200,000 damage was done. The sudden change in the wind caused the fire to spread when the firemen thought they had it under control. Fifty horses were burned to death and a number of persons were injured. Twelve minutes after the discovery the enormous dancing pavillion, two tiers of seats and galleries of Woods were a mass of flames. A stiff south west wind carried the flames toward the river; then the winds charged again and carried the flames toward A avenue. The fire destroyed the flimsy building, and in five minutes the great towers at the entrance of the Woods, A avenue, were burned, together with the line of buildings along Sixty-eighth street. The buildings on the north side of Sixty-seventh street also caught fire. The buildings fell so rapidly around the engine stationed in the street that the firemen were compelled to desert it. An engine was buried beneath the ruins and crushed and twisted out of shape. This engine, which is known as "Silver King," had been in the department twenty four years.

Tenants of the buildings were unable to save any of their household effects. The stone works of B. A. & G. N. Williams, one of the best equipped concerns of the kind in the United States, were destroyed. As many as one hundred and fifty trucks standing in the streets, which were the property of the men living in the houses thereabout, were burned. On the river front side, the dancing pavillions, bar rooms, shooting galleries, bowling alley, and dressing rooms crumbled like paper. The dock at the foot of Sixty-eighth and Seventieth streets was consumed, as were also the buildings and plant of the East River Gas company.

Mrs. Mary Rielly, a widow, had her leg broken in jumping from the window of her home. Fireman Richard T. Moore, in going to the fire, was thrown from his truck, the wheels of which passed over and fatally injured him. Battallion Chief John Fisher was also thrown from his wagon and severely bruised.

Last night the P. J. Keyer association held a dance in the Woods and it was 3 o'clock this morning before the last of the guests left the place. It was an hour later when the flames were discovered. Nothing as to the origin of the fire can be learned.

Man's Inhumanity to Himself.

The most inhuman outrages, outrages which would disgrace the savage, man perpetrates upon his own system by swallowing drastic purgatives which convulse his stomach, agonize his intestines and weaken his system. Many people constantly do this under the impression that medicaments only which are violent in their action, and particularly cathartics, are of any avail. Irreparable injury to health is wrought under this mistaken idea. The laxative which most nearly approaches the benificent action of nature is Hostetter's Stomach Bitters, which is painless but thorough, and invigorates the intestinal canal instead of weakening and irritating it. The liver and the stomach share in the benign discipline instituted by this comprehensive medicine, whose healthful influence is felt throughout the system. Malarious rheumatic, kidney and nervous complaints succumb to it.

Half a Million Loss.

Pawtucket, R. I., May 15.—The city is illuminated to-night by the blaze from fully 50,000 tons of coal consumed in the disastrous fire on the river front this afternoon. A conservative estimate places the loss at $500,000. The fire started from a spark wafted from a plumber's kettle to the barn of the Newell Coal and Lumber Company, whose entire property is in ashes. The flames communicated with the coal and lumber yards of Olney & Payne Bros., and their stock and structures were wholly consumed. They next destroyed the coal and lumber yards of the J. T. Cottrell Company and the City Coal Company. Several dwellings were also burned. There is neither a coal nor a lumber yard left in the city.

The schooner A M. Hopkins burned to the water's edge, involving a loss of $12,000. The Zampha, another schooner from Machias, Me., refused assistance and was consumed.

Americans in Europe.

Not less than 50,000 Americans are living in Europe for longer or shorter periods, and every year witnesses the flight of more than 10,000 to those attractive fields. They leave annually in the countries which they visit not less than $100,000,000—an amount which in its potentiality in the domestic life and economic system of those who reap the rich harvest is as good as $200,000,000 here. This expenditure by the 100,000 Americans in Europe is almost one-twelfth as much as the entire annual savings of the 55,000,000. American people. It furnishes very nearly or quite $10 of every $100 saved by the entire population of Europe, numbering 350,000,000. Is it any wonder, then, that the American abroad is an object of very decided interest and of very considerable principal?—Charles Emory Smith in New York "Commercial Advertiser."

—It is real funny to note the manner in which a man prepares to run for office. First he is understood to be thinking of it, then he makes up his mind he can't spare the time, and then he thanks the office needs him badly, and finally he yields to the earnest solicitation of his friend and jumps in with both feet. He intends to run all the time.—Exchange.

Along the Penna. Railroad.

The damage done to the Pennsylvania railroad, along its line from Philadelphia to Pittsburg, will aggregate many thousand dollars. There are no through trains west of Altoona owing to about 1000 feet of track being washed away at South Fork. All traffic west is taken from Huntingdon over the Broad Top to the Baltimore and Ohio and thence west. Down the Juniata Valley the track is in a bad shape but at all places passable by running slowly. It was reported this morning that the Rockville bridge across the Susquehanna, about six miles this side of Harrisburg, was in a shaky condition, but would probably be all right for travel, with due caution. This bridge withstood all the terrible flood of 1889, without so much as a crack in it.

The Reading railroad bridge at Muncy was swept away and there will be no traffic through the West Branch Valley for a week or more.

Off for Harrisburg.

The Bellefonte contingent, about one hundred strong, departed at 10.45 this morning for Harrisburg to attend the Republican State Convention which meets in that city to-morrow. They went in two special cars, conspicuous on the sides of which were large streamers bearing the words "Bellefonte," and "Our Dan." The boys, if they get there all right, will no doubt have an enjoyable time and, not like four years ago, they will bring the victor—the people's choice for governor—along home with them. The return trip will be made on Thursday and Thursday evening a grand demonstration will be given and a rousing reception tendered to General Hastings.

—While making your calculations what to do next Saturday evening, don't fail to put down an hour or two for the Bellefonte Band festival in their hall over the Centre county bank. It will be the first strawberry and ice cream festival of the season.

BREAKFAST—SUPPER.

—George Gill, the strong left fielder of last year's Tyrone club, has signed with the Lock Haven team.

—Strawberry shortcake is the seasonable delicacy just now, and the buckwheat cake has been put on the retired list.

—The Royal Arcanum held a banquet at Achenbach's on Monday night. There was a good turnout and an enjoyable time.

—J. P. Jahns the ball player, had his left arm broken by a ball pitched by Shaffer, of the Demorests, on Tuesday afternoon.

—Rev. Charles Garner will preach the baccalaureate sermon for the commencement exercises of the Tyrone public school on Sunday evening, May 27th.

—Two large steam mills with a quantity of lumber at Glenn Harris, belonging to the Phœnix Plaining Mill company, in this place, were destroyed by fire this week.

—Dr. W. U. Irvin and Miss Susie Williams, of Julian, were united in marriage at the residence of the bride's parents by Rev. G. W. Downing, last Monday morning.

—Mr. Reuben Butler, of Howard, who has been ill for some time past, died at his home in that place Friday evening about 9 o'clock. He was aged about 68 years.

—Secretary Cota is now hard at work drilling a class of athletes for the purpose of giving an athletic exhibition in the Y. M. C. A. gymnasium in the near future. This will be a novel as well as interesting entertainment.

—John Shafer, a well known young man of Huntingdon, attempted to commit suicide on Tuesday afternoon by cutting his throat with a razor. Although he gave himself a bad cut there is every reason to believe he will recover.

—A party of Johnstown cyclers will leave Altoona Saturday afternoon at 2 o'clock for a run to Bellefonte and Penn's Cave to return on Sunday. They have extended an invitation to any and all members of the Tyrone Cycle club to join them as they pass through that place on their trip.

—Mr. George T. Bush has received a request from the Cycler's Union to act as referree for the bicycle race at the Central Pennsylvania Band Tournament to be held at DuBois, June 20 and 21. Geo. is well up in Cycler's rules and if he consents to act as referree his judgment can be depended on.

—It is said that if the coal strike continues a week or ten days longer there will be very few freight trains running in the United States. The P. R. R. Company are seriously considering the advisability of running but one train on the Lewisburg branch, as they have but twentyfive cars of coal in their yards at Sunbury. Such a move would give Bellefonte but one freight every other day.

—Last season the state league could not find words severe enough in condemnation of the River league. But this season a majority of the River league players are leading the State league record, while the balance are playing with clubs that the State league could not touch with a ten foot pole. No use talking, the River league last season contained some excellent material which likely caused the jealousy of the State league.

—One day recently Irvin Barnhart, son of Henry Barnhart, of Curtin, caught a carp in the Bald Eagle creek which weighed ten pounds. This was the largest specimen of that kind of fish ever caught in those waters. There was one hooked a few days previous that weighed eight pounds. When Irv caught his ten pounder he thought he had surely hooked a whale, as it almost pulled him into the creek before he could get it out.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—Mrs. Morgan, 569 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

THE CUBAN GIANTS WON.

In Their Game With State College Wednesday Afternoon.

About three hundred base ball enthusiasts assembled in Hunter's Park Wednesday afternoon to witness a most interesting game of ball between the Cuban Giants and the State College team. Game was called at four o'clock with the College at the bat. Mattern took the second ball pitched a good left-hander and the sphere cleared the fence on first bounce giving the batter a home run. The boys were then retired in good order. The Giants drew a blank in their first and the College boys thought they might have a picnic, and they did before they were through only the picnic was one of the other kind. The game seemed close and well contested up to the sixth inning, the score standing 10 to 3 in favor of the College, when the Giants put on their batting clothes and settled down to business. Before the side was retired no less than eight of the dusky brethren had crossed home plate. From this out the game was devoid of much interest. The following score tells the story in detail:

CUBAN GIANTS	R.	H.	O.	A.	E.
Patterson, l	2	1	4	0	0
Johnson, 1	1	2	8	1	0
W. Jackson, r	2	2	0	1	0

Summary—Home runs, State College 1, Cuban Giants 1; 2 base hits, College, 2, Giants 4; 3 base hits, College 2, Giants 3; passed balls, Stuart 2, Williams 1; bases on balls, College 5; struck out by Terrill 1, by Mattern 2. Time of game, 1.40. Umpire McLean.

A Pet Dog Saves a Child.

Says a Schwenksville, Pa., special of May 11: A blacksnake five feet long today approached the child of H. H. Saylor, as it lay asleep near the door step. A little dog was with the child and saw the crawling monster when within three feet of the tiny sleeper. Without any ado the dog sprang at the reptile, and then began an uneven fight. The snake was far too big and powerful to be overcome by so small an antagonist, but the dog fought savagely. When the deadly black folds of the serpent began to coil about the dog it yelped loudly. The child was awakened and its screaming brought Mr. Saylor to the scene. He speedily killed the snake and rescued the faithful little beast, which had probably saved the child's life.

Clerks to Receive Mail.

The Postoffice Department at Washington has sent to all railway mail service employes circulars calling attention to the postal regulations requiring postal clerks to accept prepaid mail matter offered them at their cars and forward it to its destination. There was a rumor current that this privelege long enjoyed by the public was to be denied it, but this order comes from headquarters and will settle the matter for the present. Any postal clerk refusing to receive prepaid mail matter at his car is liable to be dismissed from the service unless special authority has been given him.

Historical Record.

Major Harry Forster, some years ago editor of the *Centre Democrat*, in this place, has prepared at the State Department at Harrisburg an exceedingly interesting historical record for the forthcoming report of Secretary Stewart. It will embrace a history of the legislation and data relating to the "donation lands" in Western Pennsylvania which was awarded to the officers and privates of the Pennsylvania Line in the revolutionary war pursuant to a resolution passed in 1780. The land was distributed by means of a drawing.

Band Festival.

A festival will be held in Dietrich's Grove, Madisonburg, under the auspices and for the benefit of the Madisonburg Cornet Band on Saturday, June 2nd, afternoon and evening. Ice Cream, Cakes, Lemonade and Confectionery will be some of the refreshments served. The Aaronsburg Cornet Band has consented to be present to furnish music. A cordial invitation is extended to all to attend, and a liberal patronage is requested. The organization is new and is in need of funds.

Fell on a Circular Saw.

A boy named Hooven, aged 6 years, son of the man of that name who started last year to wheel a wheelbarrow to the World's Fair, fell on a circular saw in a Curwensville saw mill yesterday. One of the lads legs was cut off below the knee and he died soon after his injuries. The boy's father has not been heard from by his family since he started for the World's Fair. The unfortuunte little fellow had accompanied a playmate to the mill, carrying a dinner pail.

Treasurers of School Boards.

Some time ago an article was published in many of the papers of the state, saying that school boards were compelled to elect a treasurer outside of the board. By referring to the school laws it will be seen that the board shall "organize by choosing a president and secretary, who shall be members of the board, and a treasurer, who may be a member of the board, or otherwise, at the discretion of the directors." It will be seen from this that school boards can elect one of their own number or any other person, and that it is not obligatory upon them to elect a treasurer outside of the board.

Death of Mrs. Calvin Tressler.

Mrs. Ida, wife of Calvin Tressler, of Peabody, Kansas, died April 23, 1894, aged 30 years, 3 months and 23 days, funeral services being held at Peabody by Rev. Fehnel; text from 2nd Cor., 2th chapetr and 1st verse. How well to know what these words express. She was a consistent member of the Evangelical church, and a good christian woman. She left an infant aged two weeks, a son 9 years old and a loving husband, together with many sympathizing friends and neighbors; also a sister, Mrs. Smith, in Kansas. Deceased was formerly from Centre county, Pa., a daughter of Daniel Stover, of Centre Hall. Her mother is still living with her son Oscar, at Boalsburg. Mr. and Mrs. Tressler moved to Kansas 9 years ago and lived 3 miles north of Peabody on a beautiful farm, close to school and church, and surrounded by good people, and we often wonder why one so young and useful is called away; but it is the Master calling His loved ones.

—New York State has taken another great stride in advance of this State by passing a law requiring the attendance of children at school. The "industrial army" in Iowa was found to be four-fifths American born. This is true of our tramps. One reason is because States like Pennsylvania let children run wild instead of requiring the discipline and regular habits bred by school attendance. In New York, in future, every child under and from 8 to 12 must attend school all the year, from 12 to 14 at least eighty days and all the school year unless employed, and from 14 to 16 a child must attend school, unless in regular employment. A fine is levied on employers as well as parents for an infraction of this law. Such a law marks a distinct advance in civilization and Pennsylvania loses by every year in which it is without such a statute.

Another Run Off.

Friday forenoon Ellory Waite, of Rock Mills was in Bellefonte after a load of machinery he was getting of McCalmont & Co. He had gone into the store leaving his team stand untied. The horses became frightened and started up High street on a run. The wagon to which the team was hitched collided with another vehicle in front of Andersons, doing it but slight damage. The team continued on up the street and run into the Eureka Grocery company's delivery wagon, breaking five spokes out of one hind wheel. Here the horses fell down and were then captured by the bystanders. Mr. Waite came along and seeing the damage done had the Eureka's wagon sent to Charles Shearer's blacksmith shop, in rear of this office, for repairs.

Band Festival.

The Band boys will give the first Strawberry and Ice Cream festival of the season at their hall next week, Friday and Saturday evenings. The Band is going to hustle now for those uniforms, and all they want is for the people to lend a hand and help them out. Everybody is invited to the festival, when ice cream, strawberries and cake will be served by some of Bellefonte's pretty girls, and the orchestra will discourse music during the evening. Don't forget the date, Friday and Saturday evenings, May 25th and 26th.

Long Tramroad.

The longest tramroad in this county, says the *Centre Reporter*, begins at Paddy mountain and extends up through Poe valley to the mouth of Garrity's run, thence down the narrows 2 miles, where a large new steam saw mill is now in operation, the length of road must be 16 to 18 miles, well equipped, ties and iron T rails, and a puffing dinky running back and forth thro that wilderness, scaring panthers and wildcats. Fishermen deplore the running of the saw dust from the mill into the stream.

Work for Each Other.

Don't be a pig. Remember that this world was not made exclusively for any one individual. It might be true that every man has a right to conduct his own business in his own way, so long as he does not violate the laws of the land. Nevertheless it makes a great difference in results whether he conducts it in such a manner as to benefit others along with himself, or whether he runs it with the selfish—looking out for number one—plan.

George Emerick Dies.

Mr. George Emerick died at Karthaus on Tuesday evening of this week, aged about 74 years. Many years ago he resided in Pennsvalley but moved to Clearfield county. He was a brother of John and Wm. Emerick, both having died within the past few years. Mr. Emerick was an uncle to Samuel, Dr. Chas., George, John, Luther, and Caroline Emerick, and Mrs. Jas. Alexander and Mrs. Cy. Brungard, all residents of our county.

—Huntingdon Presbytery will meet in Bellwood Saturday June 2nd.

Children Cry for Pitcher's Castoria.

Those Troublesome Cows.

Some days ago an article appeared in this paper suggesting that the property owners remove their fences around their properties and beautify the front of same by planting shrubbery, etc. How would this work? Let us see:

The Lutheran congregation of this place have taken considerable pains to sod the space between the church and the pavement. The grass has grown nicely and has improved the place very much. Last night it rained hard so that the ground was thoroughly soaked. This morning a cow came to the place, began to tramp the sod, tear up the grass and make havoc generally with the appearance of the place. Some four or five persons passed by without disturbing the contented bovine until finally a good citizen came along who proceeded to drive the cow from the pleasant pasture ground. The question arose, whose cow was it, and where was the High Constable?

Suppose, however, that the High Constable had been there and captured the cow; the owner, no doubt, have appeared and sworn that the cow had escaped from the enclosure or some malicious person had turned her out of the pasture field. That would have ended the matter. The cow would have been turned out without the usual fine having been paid by the owner. The ordinance specifically says the cow shall not willfully be permitted to run at large and that world "willfully" causes the release of a good many cows. The High Constable gets mad. The council says its all right, the cow must be *wilfully* at large to pay the penalty. A cow or a number of cows may destroy a hundred dollars worth of property in a single night and yet, under the ordinance, as it now exists, there would be no remedy. Of course, under the general law of Pennsylvania, there is a remedy by which you can get judgment against the owner of the cow, but getting your judgment and getting the money on the judgment for damages are two different things.

The fate of the Gettysburg battlefield rests now with Judge Dallas and we cannot doubt that he will sustain the Federal Commission in its efforts to protect the battlefield and restore it to its former condition before the trolley undertook to blow across it and occupy its most famous spots. The argument on the application for an injunction against the trolley brought by the Gettysburg Memorial Association, which was to be argued at Gettysburg last Saturday before Judge McClean, was postponed, but the more important proceeding in the United States Circuit Court will probably supersede the other by making it unnecessary. If the Gettysburg Commission are allowed a jury to appraise the ground which they have condemned, the trolley will have to surrender. If it will curb its ambition a little and be content with a route which will accommodate the public sufficiently without bestriding the main points of interest, there is yet a future for the trolley line. It is now paying the penalty of selfishness and greed. It has placed its line where it is an intrusion and an offense and it is threatened with ouster in two directions. For the sake of an inviolate Gettysburg battlefield we hope to see the Federal Commission's application promptly granted.

Honors for a Son of Old Centre.

The Republicans of Effingham county, Ill., held their convention a short time ago and instructed their conferees to vote for J. P. Condo, for state senator. Mr. Condo is a native of Miles township; his father moved off his farm, and took possession of Moyer's mill south of Aaronsburg, and J. P., then a stout boy, ran the mill wagan to Aaronsburg delivering grists. He has become wealthy and prominent in Effingham county. Mr. Condo married a daughter of Samuel Motz of Woodward, this county, and went west over 20 years ago.

Child Burned.

A little 5-year-old girl of Daniel Stein, of South Philipsburg, was badly burned Tuesday morning. It is supposed the little one set the bed on fire with matches. The fire was discovered in time to rescue the child and save the house, but the child was severely burned and the bedroom was much damaged.

—Opera rehearsal to-night at half past seven.

Young Wives

Who are for the first time to undergo woman's severest trial we offer

"Mothers Friend"

A remedy which, if used as directed a few weeks before confinement, robs it of its PAIN, HORROR AND RISK TO LIFE of both mother and child, as thousands who have used it testify.

"I used two bottles of MOTHERS FRIEND with marvelous results, and wish every woman who has to pass through the ordeal of child-birth to know if they will use MOTHERS FRIEND for a few weeks it will rob confinement of *pain* and *suffering*, and *insure safety to life of mother and child.*"

MRS. SAM HAMILTON, Montgomery City, Mo.

Sent by express, charges prepaid, on receipt of price, $1.50 per bottle. Sold by all druggists. Book To Mothers mailed free.

BRADFIELD REGULATOR CO., Atlanta, Ga.

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION

Blood Diseases

may be inherited, or acquired during life. Blood should be rich to insure health.

Scott's Emulsion

of Cod-liver Oil, with hypophosphites of lime and soda, cures all Blood Diseases, including Scrofula and Anaemia. It makes the blood rich and nourishing. *Physicians*, the world over, endorse it.

Persons troubled with skin eruptions and all who are thin or emaciated should take SCOTT'S EMULSION. Cures Coughs, Colds, and Weak Lungs.

Prepared by Scott & Bowne, N. Y. Druggists sell it.

SITUATION SERIOUS.

But at the Same Time It Might Be Much Worse.

Johnstown, Pa., May 21.—At 3 o'clock this morning this city was visited by the highest water since the big flood on May 31, 1889. For several days rain has been falling continually. Yesterday morning Stony creek reached a height of twelve feet and began to recede. It was then thought that all danger was past. Last evening, however, a heavy rain swept the Conemaugh valley between Johnstown and Altoona, and by 10 o'clock the Conemaugh river was rising rapidly. To make matters worse, there was a cloud burst near Ebensburg and this mass of water poured down the Conemaugh valley and by midnight the river was a torrent. By 2 o'clock this morning the Conemaugh was over its banks.

The alarm was sounded by fire whistles and bells of the city and almost all of the people who live in the neighborhood of the Conemaugh river left their houses and took shelter on higher ground. The water continued to rise rapidly and by 3 o'clock had reached its highest point. In many places it was from six to eight feet over the banks. It is now receding rapidly. All danger is past. The loss by the flood is variously estimated at from $75,000 to $150,000. The Pennsylvania railroad, whose tracks follow the river for twenty-five miles above this city, is perhaps the heaviest loser, and its loss is placed at $50,000.

At Conemaugh the roundhouse seemed to be about destroyed, and all the engines, [illegible] foundation was undermined, but the building stood. The overhead bridge at Conemaugh, erected by the Pennsylvania Rail road company years ago, was badly damaged and a number of houses were flooded, but none washed away. A temporary bridge across the river at this point was carried off down the river and completely demolished. The greatest damage to houses in Johnstown was done in the very heart of the city within a stone's throw of the Pennsylvania station. A store owned by Teffy George, at the north end of the Lincoln bridge, was completely swept away with all its contents. A frame building in the rear of the Grand Central hotel, owned by Emanuel Jones, was also swept away, as well as the Startler residence.

On the opposite bank of the river the corner of the Grand Central hotel, a large brick structure, was knocked out by floating debris, but the building did not fall. The large offices of the Cambria Iron company and the Gautier steel department and the store of the Penn Traffic company were submerged to a depth of four feet and a large amount of books and valuable papers were badly damaged.

Williamsport's Great Loss.

Williamsport, Pa., May 21.—The great boom here broke early this morning and sixty million feet of logs were swept away. The Susquehanna river has risen to thirty three feet and there is a six foot flood through many of the streets of the city. The Pennsylvania railroad bridge over the river is standing the pressure solidly. But the city bridges have been badly damaged. Four spans of the Market street bridge have been washed away and three of the four spans of the Maynard street bridge have gone. Both are iron structures and the pecuniary loss will be heavy. No lives have been lost here. A number of small boats were capsized today, but all of the occupants, many of whom were endeavoring to save logs and property, were rescued.

The general superintendent at Williamsport telegraphed at 8.45: "Have reason to think the critical moment has passed so far as the bridges between Williamsport and Harrisburg are concerned." A dispatch from Montgomery Bridge at 5.45 to the Pennsylvania office says: "Wonderful flow of logs now passing down, and after piling up and carrying away the Philadelphia and Reading bridge at Muncy, came in large stacks. They are going under our bridge with great noise, and striking the piers and iron, but no serious damage yet and do not anticipate any." A dispatch received at 9 p. m. said the break in the bank this side of Sunbury is being repaired, and that if the water subsides as expected a train will start from Harrisburg for Williamsport at 3 o'clock tomorrow morning. At 10 o'clock it was reported the water in Williamsport was falling three inches an hour. Dispatches received at 10.30 from Sunbury stated that "the bank along the track between R. F office and Shamokin creek bridge is washed away. The water is running in on Packer street close to Second, and is also on Susquehanna avenue." The dispatch also stated that the first span of the Sunbury bridge is loaded down with cars, and arrangements are made to load both bridges if necessary. A dispatch from Catawissa, on the west branch of the Susquehanna, says: "The water is fifteen feet high and still rising and it is still raining. At River side (Danville) the water is eighteen feet high. The water at the west end of the Sunbury yard is within six inches of the flood of 1889 and still rising, and the bank at Walnuton is washed close to the track. The fifth span of the Northumberland wagon bridge has just gone out at 10.40."

Treble and Bass

"Twinkle, twinkle little star,
How I wonder what you are."
In treble sweet piped little Grace.
"Catarrh, catarrh, catarrh, catarrh,
What a horrid pest you are;"
Growled dear papa in lowest bass.

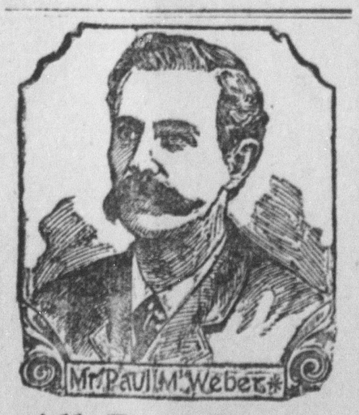
When papa reads this, he will learn how to get rid of the pest. By its mild, healing, antiseptic, and cleansing properties, Dr. Sages Catarrh Remedy cures the worst cases. This infallible remedy does not, like the poisonous, irritating snuffs, "creams" and strong caustic solutions with which the public have so long humbugged, simply palliate for a short time, or drive the disease to the lungs. It produces a perfect and permanent cure of the worst cases of Chronic Catarrh. "Cold in the Head" cured with a few applications. Catarrhal Headache relieved and cured as if by magic. It removes offensive breath, loss or impairment of the sense of taste, smell or hearing, watering or weakness of the eyes, and impaired memory, when resulting from catarrh. Only 50 cents, by druggists.

Getting It in Order.

Reader, were you ever flooded in your place of business? If you were not, did you ever stop to think what such a thing would be like? Probably not. But if you had visited this office on Sunday and taken a look at the three feet of water that filled our press room, and then come again on Monday morning and seen the chaotic condition of everything you would have had a faint idea of the unlimited notoriety attached to the fact of one's business place being flooded, only the notoriety all belongs to those compelled to clean the room out. When the water receded there was left fully four inches of the muddiest mud, mixed with all kinds of rubbish from the outside and everything imaginable from the inside. Ink barrel overturned, oil cans upset, paper in the water, about a bushel of wood type floated from the rack, coal from the coal bin, wooden furniture, benches and tables, coal buckets, wrenches, etc., all buried in the mud and dirt necessitating the most careful handling to get everything out. Then, worse than all, the water up over all the bright parts on the various presses and paper cutters, necessitating much rubbing, scouring and oiling to put in any kind of shape again. Three men worked all day on Monday to get a space cleaned large enough to run off the NEWS and ever since they have been hard at work and just seem rightly started. Such is the inconvenience and damage of a flood in the press room of a newspaper office.

But we are getting a little to rights and in a couple days more will be in proper condition to move along with the old-time regularity and promptness. For any lateness in the appearance of the NEWS or any delay in getting out other work we need make no apology; as our readers, knowing our condition, will neither ask nor expect any.

"I took Hood's Sarsaparilla to build me up after the grip and felt like a new person." George L. Berry, Newberry, Pa.



All Run Down

Always Tired, Sleepless and Without Appetite

Blood Vitalized and Strength Renewed by Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass.:
"For a couple of years, I was subject to feelings anything but good. I always felt tired, I could not sleep at night and the little I could eat did not seem to benefit me any.

I Did Not Have Any Ambition

to go around or work and in fact was not able to do a good day's work. I happened to pick up a circular embracing advertisements and testimonials for Hood's Sarsaparilla, and after reading them decided to give Hood's Sarsaparilla a trial. I have taken five bottles and must say that I have derived wonderful benefit from it and

Feel Like a New Man.

I would recommend it to all sufferers and would urge them not to hesitate but to decide at once to take Hood's Sarsaparilla." PAUL M. WEBBER, 1112 North Tenth Street, Reading, Pennsylvania.

Hood's Sarsaparilla Cures

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

FITCHBURGH & WEST SHORE.

Engineer Huston of the West Shore and E. A. Palmer of the Fitchburg Railroads, Advise their Overworked Brethren.

There is no body of men who labor more hours continuously, than railroad men. So constant and tireing are their responsible duties that there are few who do not suffer from overwork, and nervous troubles, and it does not take long before the strongest constitution gives way to the ravages of disease. Dyspepsia, rheumatism, urinary and kidney troubles have incapacitated many a man that could have been saved if the proper precaution had been taken.

Engineer Wm. Huston, of the West Shore Railroad, in speaking to a reporter of the disposition of people to neglect their physical condition said: "For years I suffered from kidney trouble and dyspepsia, at times I was in so much pain, I thought I would have to give up my engine. I had been under the treatment of various physicians, but derived no benefit. Finally, one day Conductor Frazer of our road, said to me, 'Huston get a bottle of Dr. David Kennedy's Favorite Remedy, it will do you more good than all the doctors in existence.' I followed this advice, and in a few days I began to feel better and I have been well ever since."

E. A. Palmer, of the Fitchburg Railroad's freight department at Troy, N. Y., in speaking of the great good he had received from using Favorite Remedy, said: "I was troubled with urinary difficulty for a long time. My attention was called to Dr. Kennedy's Favorite Remedy; I began its use, and in a few weeks was cured of the trouble. I have used it as a family medicine with splendid results, especially in cases of constipation and stomach difficulty."

Dr. Kennedy's Favorite Remedy is a natural antidote tor all diseases arising from an excess of uric acid in the blood, in cases of scrofula, eczema, sleeplessness or nervousness, it cures where all else fails.

Why Will You

Allow your health to gradually fail? If you are closely confined indoors with little or no exercise, and desire good health, you must take care of yourself. Use Sulphur Bitters, and you will have a sound mind and a strong body.

At the High School.

Monday's rhetoricals began with a song entitled "O, come along, cheerful song," by the school. This was followed by the last literary exercises of the term, excepting those of commencement day, the following is the program as rendered by the scholars:

Declamation, Morris Otto.
Essay, "Habits," Clarence Harper.
Recitation, Mamie Hunter.
Essay, "Ethen Allan," Grace Blackford.
" "Furs," John Larimer.
Recitation, Mattie Faxon.
Essay, "Alaska," Dale Musser.
" "Weather Bureau," Bessie Orris.
Recitation, "Class of '96," Gertie Stonerode.
Essay, "Chivalry," Blanche Underwood.
Recitation, Katie Weiland.
Recitation, Kate Benner.
" Nellie Anderson.
" Lena Baum.
Essay, "Memorial Day," Francis Elmore
Recitation, Della Goodfellow.
Declamation, Grey Hastings.
Recitation, Kittie Heylmun.
Essay, "Memorial Day," Katie Lieb.
Declamation, Albert Jackson.
Recitation, Tessie Lyon.
Declamation, Wm. McCalmont.
Essay, "History" Chas. McClure.
Essay, "U. S. Grant," Ed McGarvey.
" "Kossuth," Hattie Stott.
Recitation, Mary Underwood.

Especial mention was merited by Misses Francis Elmore, Lena Baum and Gertie Stonerode.

TOURIST EXCURSION TICKETS

At reduced rates are now on sale, via The North-Western Line to St. Paul, Minneapolis Duluth, Deadwood, Dakota Hot Springs, Denver, Colorado Springs, Manitou, Salt Lake City, Yellowstone National Park and all the lake and mountain resorts of the West and Northwest. For rates and full information apply to agents of connecting lines. Illustraed pamphlets giving full particulars, will be mailed free upon application to W. A. Thrall, general Passenger and Ticket Agent Chicago & North-Western R'y, Chicago.

"God's Finger Touched Him and He Slept."

On Tuesday evening, May 15th, at four o'clock, in the 88th year of his existence, while the shadow were lengthened out toward the east, the spirit of Jacob Brickley returned to the God who gave it. Mr. Brickley was an intense Christian and was devoted to his religious duties with his characteristic earnestness. He was thoroughly conversant with the doctrines of his church and deeply in sympathy with them. But death has done its work. This great scythe which cuts down the flower and the weeds of earth has cut down in its onward stride.

He saw a hand you could not see
Which beckoned him away;
He heard a voice you could not hear
Which would not let him stay.
Though dead, he speaks in reason's ears
And in example lives:
His faith and hope and mighty deeds,
Still fresh instruction gives.

Band Festival.

A strawberry and ice cream festival will be held on Friday and Saturday evenings next, by the Bellefonte Band, in their hall over the Centre County bank. Bring your dimes and encourage the band.

The Judiciary—Our Courts.

At the period the law for the election of President Judges went into effect, many feared that the judicial ermine would be trailed in the dust and mire of low down partisan politics. After more than forty year's practice, it has been fully demonstrated that the reverse of the fears then expressed has been realized, for the judiciary, instead of deteriorating, has become more and more non-partisan and greatly advanced in legal ability and worth over the old system of appointing judges by a political partisan governor, resulting in a more correct and rapid transaction of business without jar or friction.

For instance, take our courts of forty years ago, presided over by Judge Woodward, a model judge at that time, and compare any one of them with the first week of our last term of court, presided over by Judge Furst, and we find three times as much legal business transacted by the latter than was done by the former, in the same length of time, although during the first week of our last term the court room was crowded to excess, yet there was no delay, no "bouts" between attorneys, no loud talking or disturbance by the large audiences present, the room being as quiet and calm as an audience in a church listening to a sermon on a morning of a June Sunday.

We are aware that the bench of every court is not as well adapted to the preservation of order, and the rapid transaction of business, as ours is; but that fact is an exception to the general rule, hence we can truthfully assert that an elective judiciary, instead of lowering the judicial ermine, has elevated it to the great advantage of litigants and the public. The voters of both parties vie with each other in selecting the best legal minds in their respective districts as President Judges, and in many districts of the State the Judges are re-elected without partisan opposition, whilst in other districts it is the general custom to re-nominate and re-elect, for at least two terms, and often for three, the acting President Judge; hence it is that Pennsylvania has the best and most enlightened judiciary of any State in the Union, made so by the intelligence of its voters. Any other custom of the voters would cause our courts to degenerate, the public business would be retarded and the rights of litigants delayed to their prejudice.

The normal rainfall in the Middle States is from one-half to one-third larger than that of Western Europe and the rain which has flooded Pennsylvania is from two to three times as heavy as English, French or German engineers ever have to reckon with. The greater difficulties which such rains offer to the engineers who build our bridges, our culverts and our sewers are forgotten by those who glibly criticise the ravages worked on American structures as compared with like construction abroad. If any English or French railroad were to be struck by a like abnormal increase to the volume of water passing through its bridges and culverts it would suffer more than the Pennsylvania has. The evenly distributed rains of Western Europe and the absence of destructive deluges are by no means the least of the causes which render easier the problems of railroad and municipal engineers.

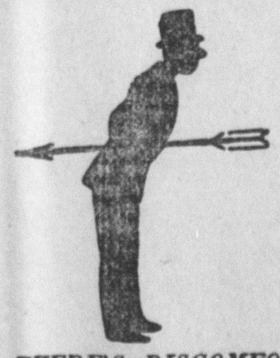
Marriage Licenses.

Following is the list of marriage license granted by the register of Centre county during the past week:

John C. Crader and Emma E. Snavely, both of Gregg township.

John R. Williams and Annie Patience Stuart, both of Huston township.

Edward V. Hoover, of Philipsburg, and Amanda May Walker, of Orbisonia, Huntingdon county.



THERE'S DISCOMFORT, pain and griping, with the usual pills. Take Dr. Pierce's Pleasant Pellets, and there's nothing of the kind. You regulate the dose according to your needs — one little Pellet for a gentle laxative or corrective, three for a cathartic—but it's all perfectly easy and natural. And the help that comes in this way, *lasts.*

These tiny, sugar-coated granules are the smallest in size and the easiest to take. They absolutely and permanently *cure* Constipation, Indigestion, Sick Headache, Bilious Attacks, and all derangements of the liver, stomach and bowels.

EVERY ONE SUFFERS from Catarrh in the Head. Those who don't have it suffer from those who do. It's a disease you can't keep to yourself.

Dr. Sage's Catarrh Remedy cures the worst cases of Chronic Catarrh.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.
ALLEN C. SMITH, Pres.,

The Centaur Company, 77 Murray Street, New York City.

AS IT NOW LOOKS.

Reflections of the Flood of Sunday. Trains Again Running.

How cheerful, indeed, it does seem to see the bright sunshine again after more than a week of cloudy weather, rain and flood. The high waters have wrought all the destruction possible and, not disheartened, a grateful people, thankful that their lives were spared, are now hard at work to, as much as possible, repair all damages done and once again put things to rights. In our own town the water has receded sufficiently to allow work to progress smoothly and large forces of men are laboring to replace and repair the boardwalks along the creek that were swept away and washed out of shape. This will require but a day or two. Most of the other places in Bellefonte that were damaged have either been repaired or soon will be.

On the various railroads matters are again assuming a normal condition. The Bald Eagle is now running trains on schedule time through to Lock Haven. The Bellefonte Central is opened and are running trains as usual. The Lewisburg is not yet in condition, owing to the damage at the large bridge at Lewisburg, which will require several days yet to get in proper shape for trains to pass over. The washouts on the Central Railroad of Pennsylvania were more serious in their nature, especially from Mill Hall to Clintondale. Not being possible to run an engine over the line, one was taken down over the Bald Eagle this morning and will work up from that end. The company expect to be able to have things in shape to run a train Friday morning. On the main line of the Pennsylvania repairs have been done with dispatch and in another twenty four hours trains will again be running on schedule time.

Program for Bellefonte.

Parade will form in Diamond Square in front of the Court house, at 2 o'clock p. m., right resting on north side of High street, in the following order: Orator and others in carriages; School children, music; Co. B; Gregg Post; visiting comrades; camps 639 and 444 P. O. S. of A; K. of G. E. and citizens.

Parade will move at 2.30 o'clock promptly by wheeling into platoons and marching over the following route: Counter march to High street, down High to Spring street; Spring to Bishop street; Bishop to Allegheny street; Allegheny to Howard street; out Howard street to Union cemetery. Arriving in the cemetery the parade will form a square, enclosing four graves previously designated with Post and National colors, in the centre.

Dirge by the Band.
Opening Ceremonies by the Commander.
Ode.
Prayer by the Chaplain.
Dirge by the Band.
Decoration of Four (4) Graves in Honor of all Deceased Soldiers and Sailors.
Ode.
Decoration of all Soldiers' and Sailors' Graves.
Re-assembling of Comrades by Bugle Call.
Memorial Address by Rev. Charles M. Stock, Chaplain 5th Regiment, N. G.
Benediction.—After which the column will reform and return by Howard to Allegheny street, and countermarch south on Allegheny street; form, right resting on north side of High street, and dismiss.

F. PEBBLES GREENE, Adjutant. THOS. DONACHY, Commander.

—Paul Jones was one of the most celebrated sea captains of years ago, and the opera "Paul Jones" is one of the best musical entertainments of the present. You cannot better enjoy yourself than to go to the opera house Friday evening, June 1st, and hear this opera as it will be rendered by the Bellefonte opera company. The chart is now open and you should get your seats reserved at once. They are going fast, but there are hundreds of them there yet.

—Another Bellefonte young man is in luck. This time it is John H. Schrom, who recently received an appointment as a cadet on the school ship Saratoga. In the State there was a class of twenty-five applicants, and out of that number only six were successful in passing the required examination, and young Schrom was one of the six. He departed last Friday for Philadelphia and on Monday went on board the ship to start on his first cruise.

Hastings Nominated.

A long distance telephone dispatch from Harrisburg announced that General D. H. Hastings was nominated for Governor by acclamation at just 8 minutes past 3 o'clock, amid the loudest applause.

For biliousness and all other conditions resulting from constipation, go by the book on Beecham's pills.

Book free, pills 25c. At drugstores, or write to B F Allen Co, 365 Canal st, New York.

Local examination, will also be held about August 25th, at Philadelphia, Pittsburg, Harrisburg, Williamsport, Reading and Scranton. Times and places will be announced in the local papers two weeks in advance.

Children Cry for Pitcher's Castoria.

Ripans Tabules: one gives relief.

IN paint the best is the cheapest. Don't be misled by trying what is said to be "just as good," but when you paint insist upon having a genuine brand of

Strictly Pure White Lead

It costs no more per gallon than cheap paints, and lasts many times as long.

Look out for the brands of White Lead offered you; any of the following are sure:

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved by property-owners by having our book on painting and color-card. Send us a postal card and get book free.

THE PASTILLE CURE FOR NERVOUS DEBILITY — TRADE MARK

Prof. HARRIS' SOLUBLE MEDICATED Pastille

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition, we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

SHAPE & SIZE OF A GENUINE PASTILLE.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

—RULES— OF THE BOARD OF HEALTH OF THE Borough of Bellefonte, Pa

OFFICERS AND MEMBERS:
WILLIAM SHORTLIDGE, President.
H. C. QUIGLEY, Secretary.
GEORGE F. HARRIS, M. D.,
R. G. H. HAYES, M. D.,
J. L. SEIBERT, M. D.,
WILBUR F. REEDER, ESQ.

1 The Board shall be organized at the first meeting in each and every year, by the election of a President and a Secretary, to serve for the current year.

2 The Board shall hold stated meetings on the first Monday of every month at 7.30 o'clock from 1st of October to 1st of April, and at 8 o'clock from 1st of April to 1st of October, and it may hold special meetings when convened by order of the President, or at the call of any two of its members.

THE PRESIDENT.

1 The President shall preside at the meetings of the Board, preserve order and decorum, and appoint the members of committees, unless otherwise directed.

2 In the absence of the President, a chairman of the meeting shall be appointed.

THE SECRETARY.

1 The Secretary shall keep accurate minutes of the proceedings of the Board, and conduct such correspondence as the Board may direct and approve.

2 The Secretary shall keep a cash book, in which entries shall be made of the receipts as they occur, and pay over to the Board monthly all moneys received by him.

3 He shall furnish the Board, at its first meeting in every month, a detailed statement of the receipts of the office during the preceding month.

4 He shall, whenever any bill is referred to him for collection, enter the same, together with a full description of the claim upon which the said bill is founded, upon a docket kept for that especial purpose, and note opposite to the said entry such action as may be taken, from time to time, in relation thereto.

5 He shall, at the expiration of four months after date of said bills, turn over to the Borough Solicitor for lien, all claims remaining unpaid, and furnish the Board with a transcript of the same.

6 He shall, in all business referred to him, and requiring legal proceedings, prosecute the same, but take such proceedings only in conjunction with the Borough Solicitor.

7 He shall, whenever this Board directs a nuisance to be removed under his supervision, abstain from employing any person who is, or may be, under prosecution for any violation of the health laws. The same prohibition is hereby extended to any other agent of the Board to whom such duty may be assigned.

8 He shall award all contracts for abating nuisances within twenty-four (24) hours after the order of the Board has been placed in his hands, and shall impose a condition in said contracts that the work must be commenced within forty-eight (48) hours after acceptance, and prosecuted continuously to completion.

9 He shall keep a book, in which he shall record all cases of contagious or infectious diseases reported to the office, with the date of the report, the location and name of the patient, the disease under which he labors, and the name of the physician in attendance. He shall have the general superintendence of the registration department.

10 He shall also keep copies of all agreements and letters made or written by order of the Board, and of such other documents as the Board may direct.

11 He shall notify the chairman of all committees of the business referred to them by the Board. He shall also notify all elected officers of their election.

12 He shall grant licenses to competent persons to clean privies, under the rules of the Board, when so directed, and for each license he shall receive the sum of one dollar, and he shall renew the said license from time to time, as the Board may direct, upon the payment of the like sum.

13 He shall place in the hands of the High Constable for execution all orders to abate nuisances, where the owners or agents have failed to comply with the notice of the Board, providing the cost of removing said nuisance shall not exceed the sum of five dollars.

14 He shall have the entire superintendence of the office, answer all questions appertaining to the business of the Board and office, and furnish the Board with a list of such supplies as may be needed.

15 It shall be his duty to issue permits to clean privy-wells, in accordance with the Act of April 3, 1851, and the rules of the Board relating thereto.

16 He shall issue permits for the removal of dead bodies from one cemetery to another, or from one grave or vault to another in the same cemetery, within the bounds of the borough, quarantine seasons excepted, unless by special order of the Board. In all cases, before issuing a permit, he shall require a certificate containing the name, age, cause of death, and date of death of the deceased.

17 He shall keep a record of all moneys received by him in his official capacity, in a book provided for that purpose, and report the same to the Board.

18 He shall receive all complaints of nuisances, having the name and residence of the complainant thereto attached and place them in the hands of the High Constable for examination. He shall record the same, when returned by the High Constable, in a book kept for the purpose, specifying the date, the location, the character of the nuisance, and make out a duplicate notice of that served upon the owner or agent. He shall submit to the Board, at each stated meeting, for confirmation or otherwise, the action of the High Constable upon complaints of nuisances and shall report any neglect of duty upon the part of the High Constable in making his examinations and returns. He shall notify committees and witnesses to attend meetings, whenever so directed by the chairman thereof. He shall append to all notices for removing nuisances that part of the law imposing a penalty for neglect or refusal to remove such nuisances.

19 He shall have the entire charge of all books and papers belonging to the Board; shall see that all entries are accurately made, and the books kept in good order and condition.

20 He shall examine carefully the returns of contagious diseases, and should any omissions or errors occur therein, it shall be his duty to notify the parties making said returns to make the necessary corrections, and any neglect or refusal on their part shall be reported to the Board.

21 He shall keep, in a book provided for the purpose, record of the names and residences of physicians, clergymen, justices of the peace, sextons, undertakers and others required by law to make returns to the Health Officer; and should any person or persons so required, when notified, neglect or refuse to call at the office and record their names and residences, he shall report the fact to the Board in writing.

22 He shall fill up all permits for the removal of dead bodies from the borough for interment, having first obtained the certificate of the attending physician, accompanied by that of the undertaker, together with the approval of the Secretary, one of whose signatures shall in all cases be appended thereto.

23 He shall at all times during office hours give to lawyers, physicians and clergymen access to the registration books, and allow them to take notes of the contents; and to all other persons desirous of examining into the merits of the system, he shall furnish every necessary facility.

24 For all permits to remove dead bodies from the borough for interment, and for all certified transcripts from the registration record, there shall be a charge demanded of fifty cents, to be paid over to the Secretary.

ELECTIVE OFFICERS.

1 At the first stated meeting of each year, there shall be elected one physician, who shall serve as Inspector, and Vaccine Physician: and who shall enter on his duties immediately thereafter, and continue in office until discharged by action of the Board, or another elected in his stead.

COMMITTEES.

1 The following standing committees shall be appointed annually, at the first meeting after the organization of the Board:

1 A Sanitary Committee, consisting of three members.

2 A Committee of Accounts, consisting of two members.

SANITARY COMMITTEE.

1 The functions of the Sanitary Committee shall be equivalent to that of the Health Officer.

2 The Sanitary committee shall be entrusted, subject to the general superintendence, orders and by-laws of the Board, with the exercise and performance of those powers and duties vested by law in the Board of Health, so far as relates to the prevention and spread of contagious diseases, and likewise with the management of such hospitals for contagious diseases as the Board shall at any time order to be opened.

Provided, That no important addition, alteration, or improvement be undertaken in relstion to the same without the sanction of the Board

3 The said committee shall hold stated meetings at least once every month and special meetings upon the call of the Chairman, or any two members thereof.

4 At the first stated meeting subsequent to their appointment, the committee shall elect from among themselves a Secretary, who shall keep in a book provided for that purpose, fair minutes of all their proceedings.

5 The committee shall cause every reported case of malignant or contagious diseases existing within the limits of the jurisdiction of the Board of Health to be visited without delay, and shall be authorized to take such other measures in relation thereto as a majority of the members shall deem proper.

6 Whenever a report shall be received that a case of any malignant or contagious disease has occurred within the limits of the jurisdiction of the Board of Health, the Secretary of the Board shall forthwith give notice thereof to the Sanitary Committee.

7 When necessary, the Board shall appoint one or more physicians to perform the duties specified in the preceding section, and shall determine the compensation to be paid for the services of the same.

8 Whenever the Board, upon representation from the Sanitary committee, shall determine it to be expedient to provide and hold in readiness one or more hospitals for contagious diseases, temporary or permanent, the committee shall select the location of the same, secure the services of competent nurses, and otherwise put those establishments in condition to be opened with the least delay possible for the reception of patients, while the Board shall appoint one or more physicians to attend the sick, and shall determine the compensation to be paid to them, as also to the nurses for their services.

9 As soon as practicable after the Board has determined to provide such a hospital, the Sanitary Committee shall arrange and submit to the Board for its approbation, a plan of hospital operations, so that everything may be conducted economically and efficiently from the day the hospital shall be opened.

10 All requisitions for medicines and hospital supplies shall be made in writing, upon the chairman of the committee, by the physician in attendance, and for all other articles necessary for the proper management of these hospitals a requisition in writing must be made by the Steward.

11 No patient shall be admitted into such hospitals excepting upon an order signed by a member of the Sanitary Committee. The rate of board to be paid by the patients shall be fixed by the Sanitary Committee.

COMMITTEE ON ACCOUNTS.

1 All bills, being first certified as correct by a majority of the committee by whose order the bill was incurred, shall be presented to the Board, and by it referred for examination to the Committee on Accounts, previously to an order being passed for their payment.

REMOVAL OF NUISANCES.

1 Whenever the cost of removing a nuisance reported upon shall exceed five dollars, the case shall be referred back to the High Constable, who shall report to this Board at the earliest practicable moment the character of said nuisance and the probable cost of removing it; upon which report the Board shall take action and instruct the High Constable in regard to the same.

2 When the cost of removing any nuisance (privy-well excepted) shall exceed the sum of five dollars, the Secretary shall invite proposals, and the bids shall be opened in the presence of the Board and awarded to the to the lowest bidder.

3 The contractor shall strictly adhere to the stipulations and terms of the contract. No extra allowances will be granted upon bills for work done, or materials furnished, unless specially ordered by the Board.

4 The contractor shall not proceed in executing his contract if he shall find that the owners have in the meantime commenced operations, or partly abated the nuisance. He shall notify the Secretary of the fact, and await further orders.

5 The contractor shall strictly conform to the lines and levels furnished by the Surveyor appointed by the Board, for grading, paving and laying drain pipe.

6 All bills submitted to the Board for removing nuisances, not exceeding five dollars, shall be itemized and a charge made for each separate item. A charge shall be made for every incidental expense incurred. The Surveyor shall furnish the Board with bills as per measurements for all contracts wherein he is required to give the lines and levels, and make out bills divided proportionately against the properties chargeable with the cost of abating said nuisance.

7 In all cases, unless otherwise ordered, where nuisances are directed to be removed forthwith, if the same are not removed within twenty-four hours, the High Constable is hereby directed to have the same done at the expense of the owner, etc.

8 In all cases of nuisances to be removed by the owners of property, who have been notified to that effect by this Board, it shall be understood, that should he or they commence the removal within the time prescribed in the notice, the Board will not interfere, providing the work is prosecuted without delay.

MISCELLANEOUS.

1 No communications shall be received by the Board from its officers or servants, or from any other person whatever, unless the same be in writing and directed to the Board, or through the President or Secretary thereof officially.

2 When any nuisance is referred to a committee, with power to act thereon, the said committee shall report in writing what action they have taken in relation thereto.

3 Police officers, constables, and watchmen are enjoined, and citizens are respectfully requested to give information to the Board of Health of any violation of the health laws, or of the rules and regulations of the Board, so that the sanitary measures adopted by the latter to ensure the cleanliness and health of the borough may be fully carried out, and all offenders promptly punished.

RULES OF ORDER.

The order of business shall be as follows:

1 A quorum being present, the President shall take the chair and call the Board to order.

2 The minutes of the last meeting shall be read, and, if necessary, corrected and adopted.

3 Communications may be presented and disposed of.

4 Reports of Committees may be made and considered.

5 Resolutions may be offered and discussed.

The Board shall be subject to the customs and usages governing parliamentary bodies.

No amendments or change shall be made in these Rules except a notice thereof in writing shall have been given at a previous meeting.

Approved, April 16th, 1894.
JOHN C. MILLER,
President of Town Council.
ATTEST: ISAAC MITCHELL, Clerk.
Approved, May 2nd, 1894.
W. E. GRAY, Burgess.

SULPHUR BITTERS
THE GREAT German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells depend on SULPHUR BITTERS it will cure you.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

Do you suffer with that tired and all gone feeling; if so, use SULPHUR BITTERS; it will cure you.

Cleanse the vitiated blood when you see its impurities bursting through the skin in Pimples, Blotches, and Sores. Rely on SULPHUR BITTERS, and health will follow.

Operatives who are closely confined in the mills and workshops; clerks, who do not procure sufficient exercise, and all who are confined in doors, should use SULPHUR BITTERS. They will not then be weak and sickly.

SULPHUR BITTERS will cure Liver Complaint. Don't be discouraged; it will cure you.

If you do not wish to suffer from Rheumatism, use a bottle of SULPHUR BITTERS it never fails to cure.

SULPHUR BITTERS will build you up and make you strong and healthy.

Don't be without a bottle. Try it; you will not regret it.

SULPHUR BITTERS will make your blood pure, rich and strong, and your flesh hard.

Ladies in delicate health, who are all run down, should use SULPHUR BITTERS.

Try SULPHUR BITTERS to-night, and you will sleep well and feel better for it.

Do you want the best Medical Work published? Send 3 2-cent stamps to A. P. ORDWAY & CO., Boston, Mass., and receive a copy, free.

5 TO 20 DOLLARS PER DAY Easily Made.

We want many men, women, boys, and girls to work for us a few hours daily, right in and around their own homes. The business is easy, pleasant, strictly honorable, and pays better than any other offered agents. You have a clear field and no competition. Experience and special ability unnecessary. No capital required. We equip you with everything that you need, treat you well, and help you to earn ten times ordinary wages. Women do as well as men, and boys and girls make good pay. Any one, anywhere, can do the work. All succeed who follow our plain and simple directions. Earnest work will surely bring you a great deal of money. Everything is new and in great demand. Write for our pamphlet circular, and receive full information. No harm done if you conclude not to go on with the business.

WEBSTER'S INTERNATIONAL DICTIONARY

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the base of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail

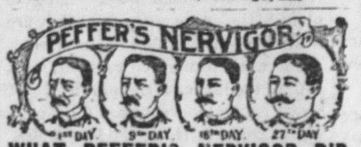
CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

DR. PEFFER'S **FEMALE PILLS.**

NEW DISCOVERY. NEVER FAILS.
A new, reliable and safe relief for suppressed, excessive, scanty or painful menstruation. Now used by over 50,000 ladies monthly. Invigorates these organs. Beware of imitations. Name paper, $2, per box, or trial box $1. Sent sealed in plain wrapper. Send 4c in stamps for particulars. Sold by Local Druggists. Address PEFFER MEDICAL ASSOCIATION, Chicago, Ill.

PEFFER'S NERVIGOR



WHAT PEFFER'S NERVIGOR DID.

It acts powerfully and quickly. Cures when all others fail. Young men regain lost manhood; old men recover youthful vigor. **Absolutely Guaranteed to cure Nervousness, Lost Vitality, Impotency, Nightly Emissions, Lost Power, either sex, Failing Memory, Wasting Diseases, and all effects of self abuse or excesses and indiscretion.** Wards off insanity and consumption. Don't let druggists impose a worthless substitute on you because it yields a greater profit. Insist on having **PEFFER'S NERVIGOR**, or send for it. Can be carried in vest pocket. Prepaid, plain wrapper, $1 per box, or 6 for $5, with A Positive Written Guarantee to Cure or Refund the Money. Pamphlet free. Sold by druggists. Address PEFFER MEDICAL ASS'N, Chicago, Ill.

PICTURE FREE

A superb mammoth tintograph in 12 colors by the distinguished artist, Maud Humphrey. It is 2 feet long and 14 inches wide and will be sent free if you tell your friends. It is called "OUT VISITING," and shows a beautiful, dimpled darling clad in a warm, rich, fur-lined cloak, basket and umbrella in hand; she pulls the snow covered latch, while her golden hair shimmers in the sunshine, her cheeks blush with health and vigor and her roguish eyes sparkle merrily. **Sure to delight you.** A copy will be sent free, postpaid, if you promise to tell your friends and send 14 cents in stamps or silver for a three months' trial subscription to

THE REPUBLICAN.

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.

Corespondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—"Glimpses of America;" did you see them?

—Huntingdon Presbytery will meet in Bellwood Saturday June 2nd.

—Never omit reading the inside pages of this paper. There is as good reading there as any one can desire.

—And it still looks like rain; it still does rain a little, and the mooted question now is, when will it ever clear up?

—There were only four wagons at market this morning. Probably the flood washed away all the early vegetables.

—Secure your seats early. There are some good seats still to be had. The chart is going very fast. Reserve them at once.

—The M. E. church social and festival has again been postponed until next Tuesday evening. Take notice, everybody.

—The remains of the little Delaney boy who died on Sunday from exposure, was buried this morning in the Catholic cemetery at Howard.

—Rev. Miles O. Noll will preach the memorial sermon for Gregg Post in the Reformed church Sunday morning, May 27th, at 10.30 o'clock.

—Send in one coupon and ten cents in coin and get part one of the famous pictorial work, "Glimpses of America." It can be had only at this office.

—The remains of the eight year-old daughter of Mr. and Mrs. Claude Thompson, who died on Sunday, were buried this afternoon in the Union cemetery.

—Everybody should get their seats reserved for the Band and Orchestra concert in Garman's opera house, on Wednesday evening, May 30th. It will be a rare musical treat.

—The most absent-minded young man in Bellefonte lives on Bishop street. He forgot that his best girl had already accepted him and proposed to her two nights in succession.

—Only a little more than a week until the opera "Paul Jones" will be rendered. If you have not already secured your seats you should do so at the earliest possible moment.

—Don't forget that this is the evening for the athletic entertainment in the Y. M. C. A. gymnasium. Everybody is urged to attend. You will get double the worth of your money, if you go.

—To keep up the excitement, and in a diversified way, two bull pups engaged in a fight to a finish in front of the Bush House this afternoon. To separate them it was necessary to resort to the use of fire.

—The storm broke down the telegraph communication and Bellefonte was cut off for almost forty-eight hours. The telephone, however, withstood everything and one could telephone anytime to any place.

—Street Commissioner Thomas Shaughensey said when the water commenced to rise Sunday morning he put his pigs in the cow stable. This was done at 5.30 o'clock. At half past six he went ont and found the pigs in water, so he put them on the hay mow, where they remained in safety.

—The Epworth League had a very interesting anniversary service in the Methodist church Sunday evening in celebration of the fifth anniversary of their organization. The young people who took part in the same all performed their parts admirably, while the music was above the average.

—Every young man, old man and middle-aged man; and every lady, miss and maiden in Bellefonte is wanted at the Y. M. C. A. gymnasium this evening to enjoy the Athletic entertainment to be given in that place. Go, everybody, and enjoy yourselves, and at the same time help along a good cause.

—A. A. Dale, Esq., has been requested to and will deliver the Memorial Day address at Pleasant Gap cemetery at 9 o'clock on the morning of Decoration day, Wednesday, May 30th. In the afternoon he will go to Unionville and deliver the address at the decoration exercises in that place at 3 o'clock in the afternoon. Mr. Dale is an able speaker and citizens of the above places will no doubt enjoy listening to his addresses on that occasion.

THE COUNCIL IN SESSION.

Amount of Business Transacted by the Borough Dads Monday Night.

Council convened Monday evening at 7.45 with members Miller, Williams, Hillibish, Bush, Brockerhoff, Dartt and Garman present. Clerk Isaac Mitchell read the minutes of the previous session which were approved as read.

Col William Shortlidge appeared before the council relative to the bill of water tax against McCalmont & Co. Mr. Shortlidge claimed that the firm had paid more tax than they had used water. At the conclusion of his statement, he presented to the council two books on the making of streets and sewerage.

John Bair appeared before council and made complaint about a large pile of stone which about one year ago was dumped on Logan street, and during a flood is a great nuisance by turning the water across private lots, etc. The matter was referred to the Street Committee.

The Street committee reported considerable work done; also, that the recent storm done considerable damage, and would entail considerable expense to put in shape again; also that the committee have examined the Lamb street bridge and pronounce it unsafe; they also reported the washing away of the foot bridge from McCoys to the P. R. R. roundhouse.

J. W. Gephart and John Blanchard, Esq., appeared in the interest of the Bellefonte gas company, and presented a draft for a siding up Lamb street to the gas plant, and also to protest against the raising of the grade of Lamb street at Spring street. He alleging that a raise of one foot at Spring street would make it almost impossible to run a siding up there. Mr. Blanchard spoke in the interest of the company protesting against the raising of the grade as it would be damaging to the plant of the gas company, as they are already below the surface of the street.

The water committee reported work begun on the laying of the pipe to East High Street; that the contract for pipe, etc., was awarded to H. A. McKee & Bro. for $191.79. They also reported that they have had sufficient coal so far and expect to have in the future; and if the coal does give out, they have experimented with an oil burner which they believe can be successful used in an emergency.

Market committee reported $2.60 market fees collected. The Fire and Police and Nusiance committees had no reports to make. Finance committee, ditto.

Clement Dale, Esq., borough solicitor, reported having thoroughly examined the market ordinance and he considered it valid in every respect and that it could be enforced.

Chief Burgess W. E. Gray reported that Kerstetter & Gettig had paid him $20 for a license to sell meat in Bellefonte.

On request of the Chief Burgess on motion the council authorized that official to purchase new uniforms for the police. Before he sat down Mr. Gray complained that the residents of the upper end of Linn street suffered quite frequently for the want of water.

A communication from Beaver and Dale was read calling attention to a claim of A. G. Curtin for the loss of a horse which died from an injury received in tramping in a hole on Pine street. The matter was referred to the street committeee for investigation and report.

On motion of Mr. Garman privilege was granted the property owners on Allegheny street, from Howard to Curtin street, to sod the street from their pavement out a distance of twenty feet from the inside of the pavement line.

The McCalmont water tax bill matter was disposed of again finally for the fourth time by instructing the solicitor to proceed with the collection of the same.

The matter of the railroad siding up Lamb street and the new grade for Lamb and Spring streets was postponed until the next meeting for final consideration.

On recommendation of the chairman of the Water committee J. Kyle McFarlane was appointed water assessor for the present year.

Nothing further being up for consideration the following bills were approved and council adjourned:

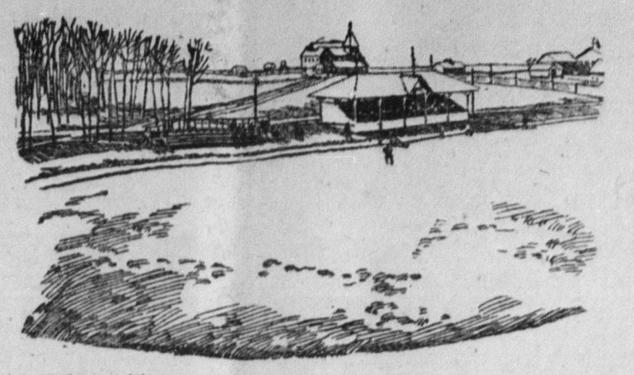
Bellefonte Supply House, supplies	$21.13
Police Pay Roll	35.00
Street pay roll	45.79
Jenkins & Lingle	2.35
R. J. Schad & Bro	7.04
Water pay roll	65.08
Jenkins & Lingle, supplies	23.38
J. M. Wetzel, surveying	4.50
Total amount	$204.27

Wandered from Home.

On Friday afternoon the four-year-old son of Mr. Delaney, at Jacksonville, wandered away from home and failed to return at nightfall. The parents made careful inquiry and search everywhere but without avail. On Saturday search was kept up and inquiring of every neighbor for miles around made, but still no tidings of the missing boy could be found and the parents were almost heartbroken. On Sunday morning the whole neighborhood for miles around turned out enmasse, fully five hundred people aiding in the search, and scoured the country completely. About twelve o'clock the child was found fully six miles from home lying under a peach tree, where the poor little fellow had no doubt fallen utterly exhausted. He was tenderly picked up and carried to the nearest house, but the exposure had been too much for the frail constitution and the child died inside a half hour.

Postponed Until Friday Evening.

Owing to the reception to be tendered General D. H. Hastings on Thursday evening the Methodist church social and festival, which was anounnced on Monday to take place that evening at the home of Dr. J. E. Ward, has been postponed until Tuesday evening. Everybody will please take notice; and all those who so kindly offered to furnish cake, ice cream, etc., will please deliver the same on Tuesday morning, instead of on Thursday.



BEAVER ATHLETIC FIELD, STATE COLLEGE,

Where the Nith Annual Championship Contests of the Inter-State Collegiate Association took place May 19th.

Bellefonte's Market Ordinance.

The borough ordinance governing the establishment and operation of Bellefonte's curb market requires that all persons who avail themselves of its privileges are required to stay there until 9 o'clock and, to refrain from peddling or hawking their produce around town. For this privilege a nominal charge of ten or twenty cents is charged for each morning. The majority of the farmers and gardeners who attend market are perfectly willing to conform with the ordinance, but there seems to be a disposition on the part of a few persons to do pretty much as they please, whether it is in conformity with the rules of the market committee and the borough ordinance, or in direct violation thereof. Such acts, which in themselves seem entirely harmless, tend to create confusion and demoralize the market system.

Then, aside from the regular curb market, there are those who come to town and only peddle from door to door. These are mostly butchers. For this privilege the authorities have decided that it will hereafter be necessary to take out a license. One firm, Kerstetter & Gettig, butchers, of Pleasant Gap, has already done this, paying $20 for the same, and all other persons who desire this privilege in the future will be required to do likewise, or they will be prohibited from selling. What is fair for one is fair for all, and no reasonable man should kick against being asked to do just as his neighbor has done.

Romola Rumblings.

Corn planting is over with us.

Zachariah Baker is still in a critical condition and little hopes are entertained for his recovery.

Quite a number of our young men who left here for Pine Creek to peel bark have returned, as they were unable to get work. Two years ago, when there were five jobs for every man, they voted for a "change." Now there are five men for every job and they are disgusted with it.

The rains of Thursday, Friday, Saturday and Sunday have swolen the streams equal to, if not greater, than those which caused so much devastation in June, '89.

R. J. Mann is building an addition to his house.

Since Chairman Reeder, of the Republican county committee, has issued his call for the primaries and convention, office seekers are becoming quite numerous.

We would like to say a word to the young man who is getting up so many dances that he should read Ecclesiastics 3:4, and possibly he may stop and think what he is doing.

Now trout fishing season has opened in earnest, and many of the speckled beauties are being caught. * *

From Prof. J. E. Bowers, Principal High School, Bloomington, Neb.

Having examined with care "*Glimpses of America*," I take pleasure in saying that, as a work of art, it has no superior. It is a treasure-house of the beautiful and wonderful found in our land; many pleasures that wealth gives the tourist are here found at little expense, and may be enjoyed over and over.

These beautiful works of art can be had of THE REPUBLICAN. Part 1st is about ready. Send one coupon cut from the paper together with ten cents in coin and secure part one. knowing that you will want them all. See ad. on fifth page.

Death of Willis Woodring.

The death of Willis W. Woodring, the 18-year-old son of Ex-sheriff D. W. Woodring, who has been ill for seven weeks past, occurred Tuesday evening at about 5 o'clock, at the home of his father on East High street. About seven weeks ago Willis was striken with typhoid fever. He apparently recovered from the fever but an illness followed which could not be successfully combatted and after lingering at the point of death for weeks the boy passed away at the time above mentioned.

LETTER LIST

Following are the letters uncalled for in the post-office, Bellefonte, Pa., May 21, 1894.

Mrs. Lizzie Geys, W. F. Hollis, G. H. Loor, R. F. Miller, J. H. McMillan, John McCullough, John E. Rupp.

When called for please say advertised

DAVID F. FORTNEY P. M.

SWARTHMORE LEADS.

In the Championship Athletic Contest at State College on Saturday.

Saturday was a disagreeable, dismal day for out-door sports and yet, notwithstanding the inclemency of the weather, a large crowd of enthusiastic sporting people was assembled on Beaver Field, at State College, to witness the ninth annual championship contest of the Inter-Collegiate Athletic Association, of Pennsylvania. The Association is composed of the colleges of Swarthmore, Lehigh, Lafayette, Dickinson, Pennsylvania State, Gettysburg, and Western University of Pennsylvania, and they all were represented with good teams. The grounds were horrible but the track was in a fairly good condition, notwithstanding the rain, and every contestant looked the veritable "pink of perfection." It was just two o'clock when announcer H. M. Beaver called time and announced the first event, and the contests began. The program was long but the entire affair proved very exciting and most interesting from beginning to end. The winners in the different events are as follows:

Event No. 1, 100 yards dash—preliminary heats—first heat, Palmer, of Swarthmore, time 10 sec.; second heat, Matterson, of Swarthmore, time 10 3-5 sec.; third heat, Emley, of Swarthmore, time 10 2-5 sec.

Event No. 3, 100 yards dash for seconds—first heat, Mayer, of Western University, time 10 2-5 sec.; second heat, McCullough, of Lafayette; third heat, Sullivan, of Swarthmore.

Event No. 4, 2-mile bicycle race—Sims, of Swarthmore, time 5 min. 32 sec.

Event No. 5, 440 yards dash—Glenn, of Swarthmore, time 54 1-5 sec.

Event No. 6, 120 yards hurdle race—Rushmore, time 17 1-5 sec.

Event No. 7, 100 yards dash final heat—Palmer, of Swarthmore, time 10 1-5 sec.

Event No. 8, one mile run—Marshall, of Western University, time 4 min. 51 1-5 sec.

Event No. 9, one mile walk—Price, of Penna. State, time 8 min. 51 1-5 sec.

Event No. 10, 220 yards hurdle race. preliminary heats—first heat, Rushmore, of Swarthmore, time 29 3-5 sec.; second heat, Thompson, of Penna. State, time 32 sec.

Event No. 11, half-mile run—Russell, of Lehigh, time 2 min. 9 4-5 sec.

Event No. 12, 220 yards dash—preliminary heats—first heat, Mayer, of Western University, time 25 2-5 sec.; second heat, Palmer, of Swarthmore, time 25 2-5 sec.

Event No. 13, 220 yards hurdle race—final heat—Biddle, of Swarthmore, time 29 4-5 sec.

Event No. 14, 220 yards dash-final heat—Palmer, of Swarthmore, time 25 1-5 sec.

In field sports Event No. 1, throwing the hammer—Clark, of Swarthmore, distance 116 ft. 7 in.

Event No. 2, pole vault—Conrow, of Swarthmore, height 8 ft. 10 in.

Event No. 3. running high jump—Harder, of Penna. State, height 5 ft. 2 in.

Event No. 5, putting shot—Fisher, of Penna State, distance 35 ft. 7 in.

That Inter-Collegiate Meet.

The meet on Saturday was held amid the greatest difficulties. Mud and water covered the grounds and also the Professors who acted as measurers, starters, etc. Notwithstanding all the inclemencies of the weather every event came off as though there was the most beautiful sunshine. The races were run while the rain was falling so heavily it was almost impossible to see the runners. The jumpers alighted in a batter of thin mud which made it almost impossible to avoid falling backwards. But still there was some very good work done.

The man from Swarthmore who won the bicycle race ran under protest as it is claimed that he is not a student at Swarthmore, but a professional rider who holds a record almost as good as the champion of the world. The question has not been settled and if he is ruled out it will slightly change the difference in the number of points between State and Swarthmore. Owing to the weather all the colleges that belong to the State Inter-Collegiate Athletic Association were not represented. The number of points won by each college represented is as follows—(Counting Swarthmore as winning the bicycle race):

Swarthmore	66⅔ Points
State	29 "
Western University	11½ "
Lehigh	5 "
Lafyette	0 "

About 800 people were in attendance.

The reason of Swarthmore marked superiority over other colleges in the state in Field and Track Athletics is that she devotes her whole time to these sports and scarcely supports either a base ball or foot ball team. All the other colleges maintain good ball teams and consequently their athletic work has a wider field to cover and cannot produce such results as it could were it concentrated as at Swarthmore.

Trainer Hoskins, of State, is to be commended for the good work which he secured from States men. He has to labor under many difficulties. The time which men in other colleges can devote to training, the men at State must put in at practicing and at drill. The very men possibly who should train hard for the runs have to go away on a base ball trip with all its accompanying hard work. Thus they cannot get the amount of training which is requisite in a contest of this kind, and too much must not be expected of the men.

PERSONAL PENCLINGS.

Mr. Isaac Underwood is off on a visit with relatives in New Jersey.

Ed. Graham and family, of Winburne, Clearfield county, are visiting friends in Bellefonte and vicinity.

Mrs. J. E. Ward and children, of this place, are visiting at Mrs. Ward's home, Mrs. Stiver, in Centre Hall, and the Doctor is just as lonesome as can be during their absence.

Mr. George W. Jackson departed on Monday evening for Harrisburg for the express purpose of attending the Republican State Convention and having the pleasure of seeing Gen. Hastings nominated for Governor.

Miss Helen Hastings, daughter of Gen. D. H. and Mrs. Hastings returned Thursdry evening from an extended visit with friends in Philadelphia and on her arrival here she was met by a large crowd of young people at the depot.

Mr. Joseph Undercoffer, the genial assistant baggage agent at the P. R. R. depot in this place, departed on Monday evening for Philadelphia. Joe is a sly rascal but report saith that when he returns home he will be accompanied by a young lady as his future life partner. We extend congratulations.

In Memory of R. V. Butler.

HOWARD, May 23rd, 1894.

One more of the 45th P. V. soldiers has been discharged. Comrade R. V. Butler, of Howard Post, 262, G. A. R., was buried on the 21st inst. Comrade Butler was one of Capt. Austin Curtin's men. He enlisted in September, 1861, and was discharged in January 1863, serving seventeen months as Sergeant of Company D, 45th P. V. He has been an invalid for the last five or six years. This will be our summons ere long; when the roll is called there will be no one to answer, they will all be captured but not by the enemy, if we live as soldiers should live. When the bugle is sounded we will all be ready for the emergency; there will be no flatering for any one there.

OLD SOLDIER.

RESOLUTIONS OF RESPECT.

At the last meeting of Grove Brother's Post the following resolutions were unanimously adopted:

WHEREAS, It has pleased an allwise Providence to again visit our Post with death, and take from our midst Comrade R. V. Butler. Therefore,

Resolved. That in his death we have lost an honorable, brave and patriotic soldier, and a faithful member of our Post.

Resolved, That he was also a good citizen, highly respected in the community in which he lived, possessing a kind and generous heart.

Resolved, That his friends have lost a kind and good father and we most heartily condole with them in their bereavment.

Resolved, That these resolutions be entered on the minutes of the Post, and a copy thereof be forwarded to the county papers and to the family of our deceased comrade.

H. C. HOLTER,
J. R. PHEASANT,
WM. H. NEFF,
Committee.

Little Johnnie, on seeing a skeleton for the first time, exclaimed, "Why, but they skinned her mighty close, didn't they! She looks worse than Aunt Jane did, before ma gave her that bottle of 'Favorite Prescription!'" "Aunt Jane" was so completely worn out, by prolapsus, difficulties and nervous prostration, that she was a constant sufferer, night and day, but Dr. Pierce's Favorite Prescription acted so promptly and favorably upon the uterus and other organs, that she suffers no pain at any time, and her general health was never better. As a remedy for all female weakness, as a strength-giving tonic and quieting nervine, "Favorite Prescription" is unequaled. Guaranteed to give satisfaction or price ($1.00) refunded.

—Ladies Coats reduced from $6.00 to $3.00 at Mrs. J. A. Aikens. A.5-1m.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

ABSOLUTELY PURE

ECHOES OF THE FLOOD.

The Damage Done Along Spring Creek—Later News from Other Places.

A correspondent sends us the following: For the past several days we have had so many heavy showers that the water could not have time to soak or settle into the earth, so it ran off and joined in raising the waters of Spring creek and Logan branch. The writer was up Spring creek as far as Beezer's upper butcher shop; there the forebay that dammed the water to supply power for the machinery was carried away. The water took away nearly all the fences and small buildings along the creek and the gardens and fields are terribly washed out, the crops being almost a total loss to the owners. Above the Roopsburg mill the large flat meadow was covered with water from hill to hill, and it was almost as bad below the mill. One funny incident happened which put life into one individual. Mrs. Bosh's bees were getting too much water for their good and a neighbor got a wire seive and undertook to carry the bees to a safe place. All were successfully removed but one hive, but when the man took hold of it the bees got angry and made things lively for their rescuer; and the way in which he tried to get away from that immediate neighborhood was a caution. The forebay of the distillery dam was moved several rods but lodged securely. The people living along Spring creek have lost their summer crops and gardens; this means the most of their year's living gone, and they will now be in sore distress unless aided by those who have been more fortunate.

LEWISBURG BRIDGE DESTROYED

Dispatches this morning state that two spans of the large railroad bridge between Lewisburg and Montandon were carried away Monday night. This will suspend traffic on the branch for the biggest part of two weeks.

Advices from Clearfield state that the water was higher at that place on Monday night than it had been any time previous, this would naturally keep the water high at Lock Haven and Williamsport. The trains on the Bald Eagle branch have been able to get further east than Mill Hall.

In and around Bellefonte the water has gone down several feet and is now doing no damage, although it is as yet too high to get to work at repairing the destruction of Sunday.

There were no trains over the Central Pennsylvania, the Bellefonte Central or the Snow Shoe branch on Monday, but it is likely there will be at least one train go over these roads some time today. No train was sent out over the Lewisburg yesterday afternoon, but the regular train went out this morning. It is not known at this writing how far it got.

Perils of Modern Life.

Contacts with electric wires, railroad accidents, broken car and elevator cables, explosions of steam, natural gas and chemicals, poisons in adulterated food and drink, are a few; but all these dangers combined do not kill as rapidly as slow and sure Consumption. The death rate, however, from Consumption, is being yearly cut down since Dr. Pierce of Buffalo, N. Y., has given to the world his celebrated "Golden Medical Discovery," a cure for Consumption and Throat and Lung troubles that lead to Consumption, if taken in time and given a fair trial. The time to cure Consumption (which is really nothing more or less than Lung-scrofula), is in the first stages. A cough generally sounds the alarm, and you should take the "Discovery at once. There is a time when it is too late.

Struck by Lightning.

During the storm of last Friday afternoon the house belonging to Daniel Fahringer, of Tusseyville was struck by lightning and he was instantly killed, also badly injuring a son of Mr. Lee who, this writing, is still living but likely to die. One of the strange freaks of the electric current was that in passing along the floor it tore off the soles of the shoes of two of Mr. Fahringers children without doing them bodily harm. The house did not take fire but was torn up badly. None of the rest of the family were injured.

An Accident of the Flood.

During the late flood A. W. Dale, of Oak Hall, had a herd of 12 fine cattle in a meadow on his farm. The dam of the mill at that place gave way and the late flood of water covered the meadow to a great depth drowning all the cattle but one. They were extra fine cattle and the loss considerable.

ANNOUNCEMENTS.

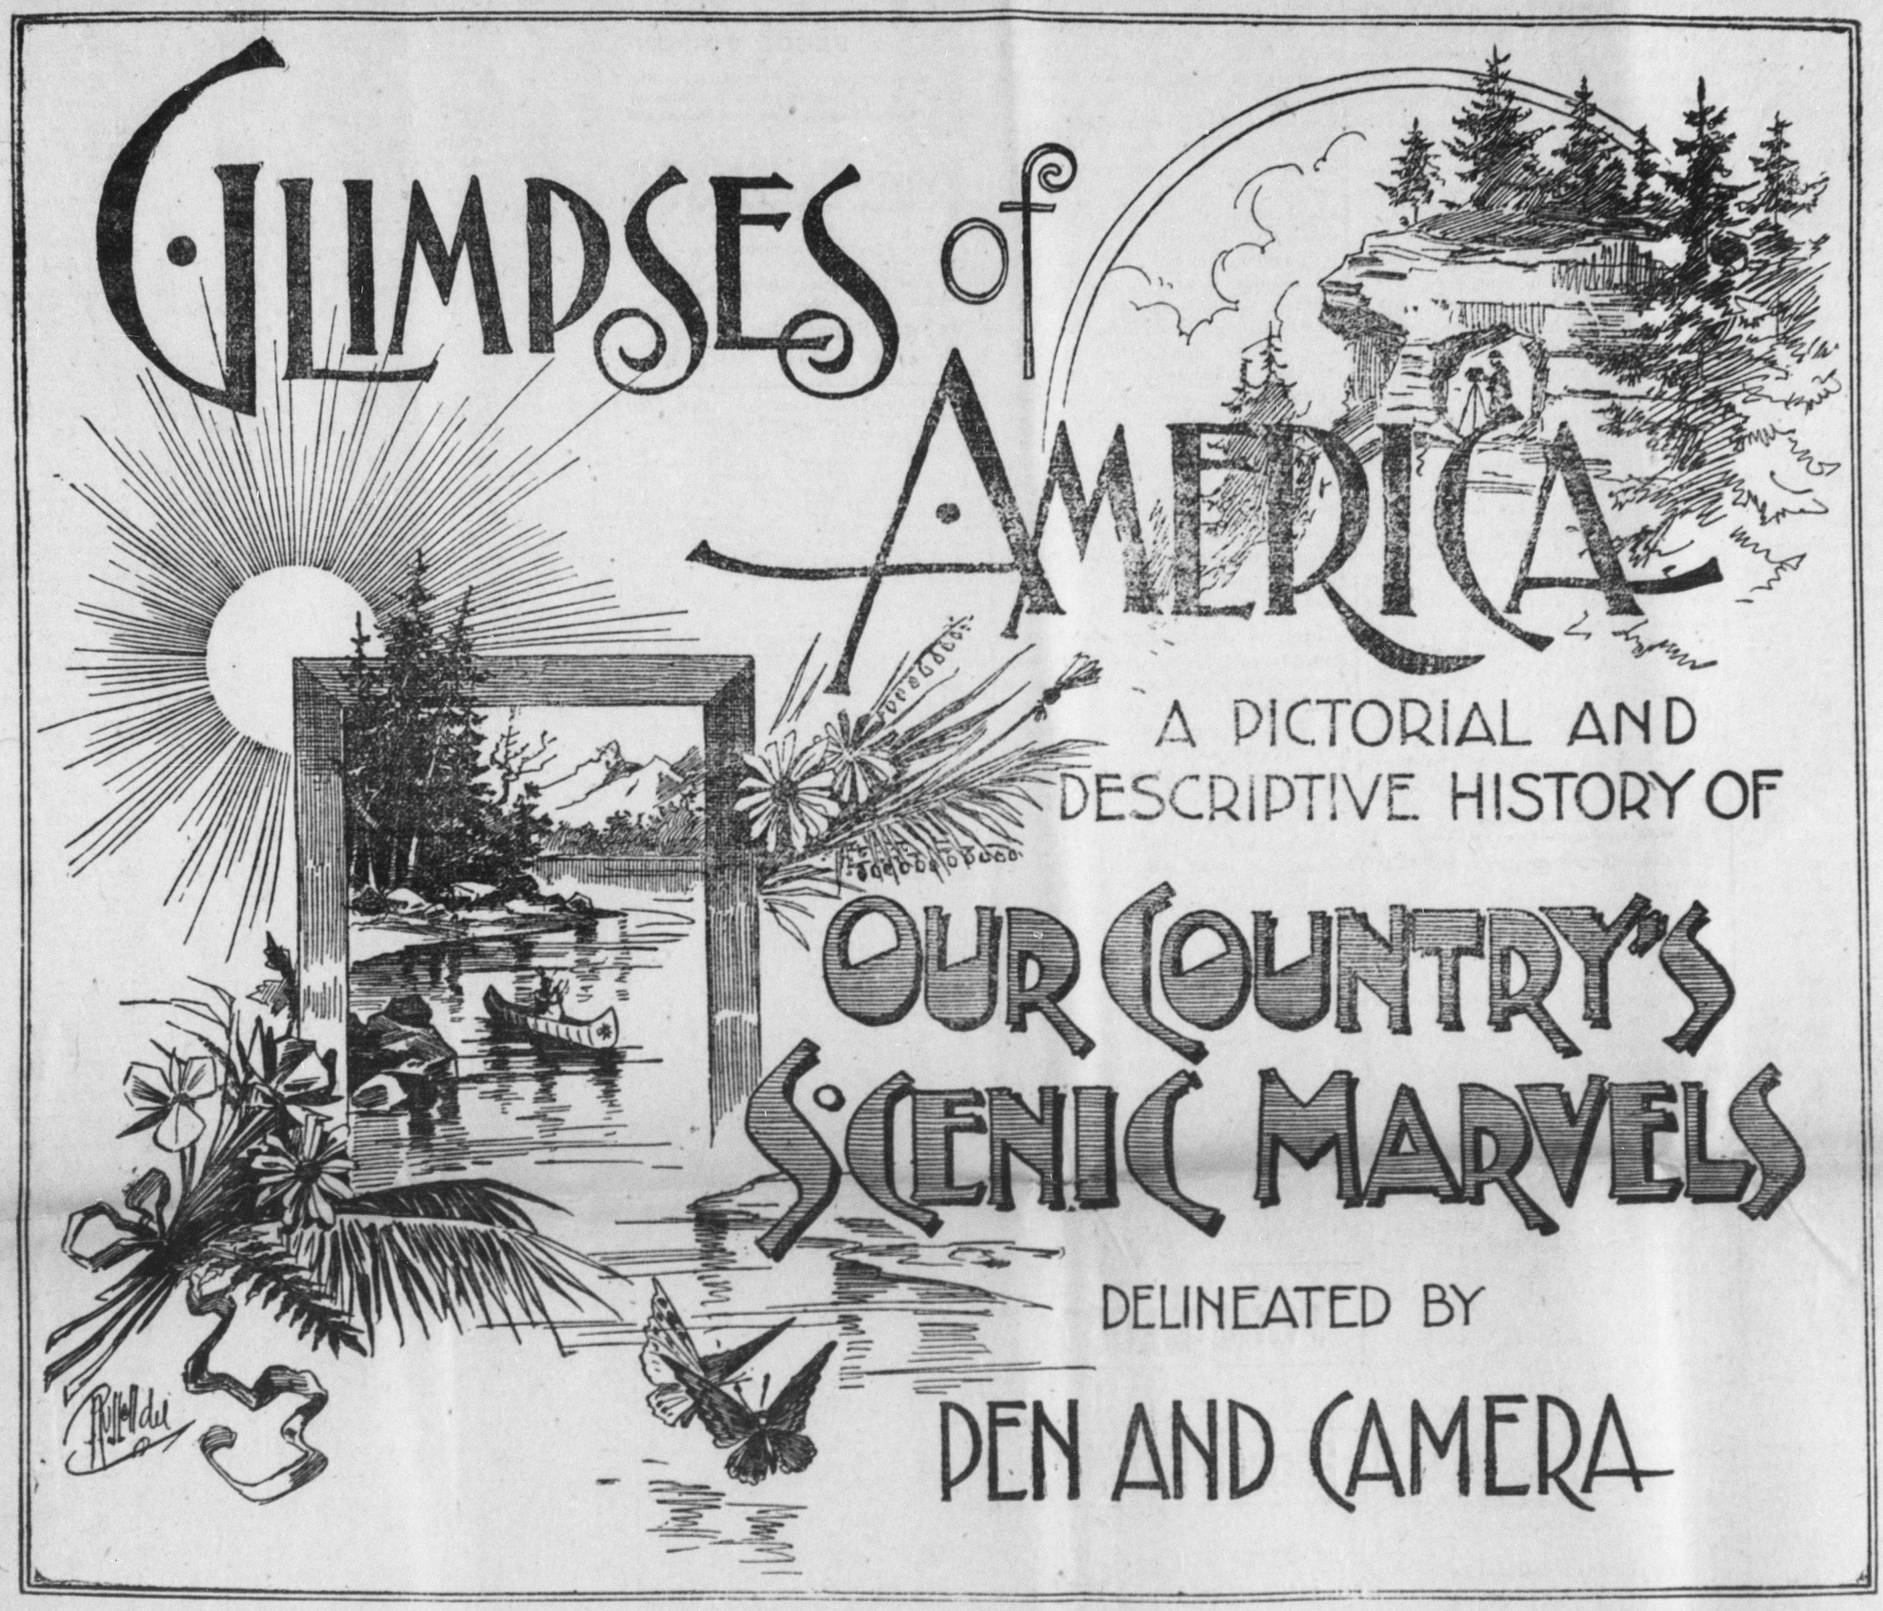
PRESIDENT JUDGE

In accordance with the customs and rule of the Republican party, I hereby announce myself as a candidate for President Judge of this Judicial District, subject to the action of the Republicans of the district at their nominating conventions.

JOHN G. LOG.

In accordance with the rules and usages of the Republican party we are requested to announce as a candidate for President Judge in this Judicial district the name of HON. A. O. FURST, subject to the action of the Republicans of the district at their nominating conventions.

GOOD TIDINGS OF GREAT JOY



NOTICE OF APPEALS:—
Annual Assessment Appeals for 1894.
Notice is hereby given to the tax-payers of Centre county, that the County Commissioners will hear and determine appeals at the Commissioners' Office, at Bellefonte, Pa., for the respective districts, as follows:
Thursday, May 24th—Union, Burnside and Snow Shoe townships, and Unionville borough.
Friday, May 25th—Marion, Walker and Boggs townships and Milesburg borough.
Saturday, May 26th—Howard, Curtin and Liberty townships and Howard borough.
Monday, May 28th—Miles, Penn and Haines townships and Millheim borough.
Tuesday, May 29th—Potter and Gregg townships and Centre Hall borough.
Thursday, May 31st—Harris, College, Ferguson and Halfmoon townships.
Friday, June 1st—Rush, Taylor, Huston and Worth townships and Philipsburg and South Philipsburg boroughs.
Saturday, June. 2nd,—Benner, Patton and Spring Townships.
Monday, June. 4th—Bellefonte Borough.
The time for hearing appeals will be between the hours of Nine (9) o'clock, A. M. and Four, (4 o'clock, P. M. The assessors of the several districts will be present with the Board of Commissioners on the day of said appeal for their respective districts, as well as all persons who may feel themselves aggrieved. Assessors will bring all books and papers, they have, to the appeal.

G. L. GOODHART
T. F. ADAMS.
J. P. STROHM.
County Commissioners

Attest:—

Complexion Preserved
DR. HEBRA'S
BALM CREAM
Cures Freckles, Pimples, Moths, Blackheads, Sunburn and Tan, and restores the skin to its original freshness, producing a pure and healthy complexion. Superior to all face powders and perfectly harmless. At all druggists or mailed for 50cts. Send for Circular.

BALM SKIN SOAP is simply incomparable as a skin purifying Soap, unequaled for the toilet, and without a rival in the nursery. Absolutely pure and delicately medicated. At druggists. Price 25 Cents.
G. H. BITTNER & CO., TOLEDO, O.

Our patrons will hail with delight the announcement that the REPUBLICAN has secured for its readers the most splendid pictorial work, illustrative of the wild, wonderful and charming scenery of our country, that was ever issued from the press of any land.

GLIMPSES OF AMERICA is a work of superlative merit, superior in its descriptive matter, and resplendent with 550 of the most beautiful half-tone pictures ever produced by the ingenious processess of experimentation and invention. But art and illustration have been surpassed by the discovery of a process whereby SCENEBY IS PHOTOGRAPHED IN NATURAL COLORS, and examples of this sublime discovery are now for the first time used in GLIMPSES OF AMERICA. They are called Cameragraphs, because the camera does the work of both printing and coloring; they are also designated as Heliotypes, because no other light than the sun is available for their production, and require an exposure of six hours.

GLIMPSES OF AMERICA has been pronounced, by a thousand distinguished persons, the most exquisite work that the press of the world has yet brought forth. But its beauty and worth is not restricted to the 550 superb illustrations that present all the marvelous scenery of our country with the vividness of actual observation, for its value is immensely increased by the remarkable graphic descriptions of the author, Mr. J. W. Buel, who, with a corps of three expert photographers, spent two years traveling in a special photographic car, visiting every section of the nation, collecting facts and making pictures of the scenic wonderlands of America. The cost of this trip was $50,000, as they traveled a distance of 25,000 miles by car, horseback, stage, boat and on foot, traversing every State and Territory that lies between the two oceans, and between Mexico and Alaska.

-GLIMPSES OF AMERICA-

GLIMSES OF AMERICA will contain a series of eight super-magnificent CAMERAGRAPHS, an invention of the publishers, who have spent a fortune in perfecting the process. Nothing in the way of fine engravings or color printing can be compared with them for their indescribable beauty and matchless splendor, that seem to hold

All the Glories of Nature in Their Embrace.

GLIMPSES OF AMERICA has no foot-note explanations of the illustrations, but contains an historical and descriptive narrative, diversified with stories, legends adventures, and thrilling episodes, that make the work more interesting than any novel, and

As Valuable as Any History,

because to Americans it tells a wonderful story, which they ought not only to hear but to know.

This Most Charming and Exquisite Pictographic Book

is published as a serial, comprising thirty-two parts, one of which will be issued each week and in every fourth number a bewilderingly beautiful full-page Cameragraph will appear. Each part will contain sixteen pages of pictures and reading matter, in about equal proportions, the pages being 11x13½ inches in size. The REPUBLICAN has secured the exclusive privilege of distributing **Glimpses of America** in Centre county and takes pleasure in announcing that the first number is now ready.

How to Obtain This Peerless Work!

Inferior serials are even now being sold at one dollar per number, but we are able to offer **Glimpses of America** to our readers upon the following conditions, viz.: Cut one coupon from the REPUBLICAN, and bring or send it to our office, together with ten cents, and we will either deliver any one part so ordered in person, or mail the same to any address without further expense.

BIG COAL CONFERENCE.

Yesterday Was the Gloomiest Day and it May Be the Last of the Meeting.

Cleveland, O., May 17.—This is the gloomiest day of the big coal conference, and, possibly, it may be the last. The miners and operators before the convention was called to order seemed as far apart as ever they were, and at the Hollenden and Weddell, where the operators are quartered, the belief seems to be general that when evening comes the conference will come to an end without the conferences having reached anything approaching a settlement. Not even a modus vivendi, whereby the country may be supplied with coal and the question of wages discussed at another time, wos expected.

The convention was called to order shortly past 9 o'clock, and Chairman Zerbe called for a report of the conference committee. Every delegate in Case hall knew just what it would be—that no agreement could be reached—and there were no surprises in that.

The miners had been informed by the morning papers of the belief expressed by the operators that President McBride could not keep the men on strike much longer, and they proceeded to dispel what they called a delusion upon the part of their employers. They pointed to the fact that the strike so complete and far reaching in its results are not declared off by the strikers when they have so much to encourage and so little to discouiage them. Secretary Patrick J. McBryde has insisted all along that no settlement can be made because the operators have not yet felt the rigors of a complete tie-up.

Many operators started home last night, leaving their proxies, and some went away this morning, so that the convention, when it was called to order, consisted of not more than 300 delegates. There were 401 on the first day. The small operators expect the larger ones to make an effort to break the strike as they, especially those from Pittsburg who have taken contrast to deliver about 500,000 tons of coal to railroads and for the lake trade for from $1.90 to $2.17, prevented a settlement.

Last season coal for fueling vessels sold from $2,25 to $2.50, but this year before navigation was fairly opened an operating company took the contract to fuel vessels for $1.90. One of the western roads gets its supply at Green Bay, Wis., for $1.98 from a local firm, after being shipped by rail and water over 1,00 miles. Such contracts as these have so far prevented a settlement of the vexed question.

Iron and Steel Workers.

Pittsburg, May 17.—Probably the most important business to be considered at the Cleveland convention of the Amalgamated Association of Iron and Steel Workers is the advisability of a national strike in the iron trade Such is the report current among the local iron and steel, workers who say that project has been under discussion in their lodges for several months. According to the same sources of information emissaries have been working with such success among the employes in non-union mills. It is well known that non-union workers, as well as the unionists, have become dissatisfied over the present condition of affairs. It is stated that the desire of the Amalgamated Association of Iron and Steel Workers' organization to co-operate has been eagerly accepted for the purpose of scaring up a general strike sentiment for higher wages.

For the purpose of stirring up a general strike sentiment for higher wages, trustrd organizers haze been sent to Steelton, Harrisburg, Scranton, Philadelphia, Pottstown, Bellefonte and other easier manufacturing cities to sound the workingmen and ascertain whether they will join in the movement. This national strike, it is said, will not be entered immediately. Six months or more may elapse before it is undertaken. In the meantime a part of the plan is to have the convention adopt the sixty-day limit wage scale. It is also asserted that in many mills which are nominally working under individual agreement secret lodges have been organized and the men are only waiting an opportunity to assert their allegiance to the Amalgamated association. The recent strikes in non-union mills are indicative of the spirit of unrest now prevalent, and the Amalgamated association officials are not slow to take advantage of the situation. It is confidently predicted that unless there are radical changes in the plans during the Cleveland convention a national strike in the iron and steel industries will certainly be ordered.

A Heavy Assessment.

The members of the Order of Tonti who expected about the middle of August to get $1000 are in a perplexed state of mind over the notice served on them a few days ago by the supreme officers that each of the maturing certificate holders must pay an assessment of $525. The said holders had been congratulating themselves upon the near approach of the day when they would each receive a check for the snug sum of $1000 for about $350 paid in. If they are compelled to pay the heavy assessment—and most of them reluctantly admit that it looks that way—they will have paid in about $875 in seven years for the $1000.

The Order of Tonti has about 6000 members, the largest branches being in New York, Brooklyn and Canada. There are more than 500 lodges in the whole Order.

The association was organized on April 27, 1885, as a beneficial society, by which the members, by paying two or three assessments of $2.50 each per month, were to receive $1000 at the expiration of seven years.

We do not know whether there are any members of this Order living in Bellefonte, but there are quite a number throughout the county.

The Brooks Law Again.

There are so many ramifications into which the Brooks law must pursue the liquor business that it seems as if it never will be settled how far the courts may go in regulating the sale of liquor. The supreme court, which will meet in Pittsburg in October, will have another Brooks law nut to crack. A saloonkeeper's license has been revoked by the courts of Cambria county on the ground that he violated the law during 1892 by selling liquor to miners, although he had a license in 1893, and was therefore adjudged by the license court of that year, as well as of 1894, as a fit man to conduct the business. The saloonkeeper has appealed from the decision revoking his license now, maintaining that it cannot legally be done for violations of the law two years before, when licenses have been granted since, and that a judge cannot grant a license conditional on its being revoked if former violations are revealed.

The law generally takes no cognizance of time elapsing between the commission of the offense and its discovery, and it will be a nice question for the supreme court whether the fact of a liquor dealer having escaped the eye of the law in violations for two years may be considered to have condoned the offense in that way. By the time the Brooks law is fully interpreted by the courts—if it ever is—it will have as many trimmings and explanations tacked to it as the Wilson bill when it came back to the senate from the Democratic caucus.

Oddities from Everywhere.

London funerals cost over $5,000,000 annually.

A French chemist makes wine out of potatoes.

London bridge is crossed by 200,000 people daily.

Photographs have been taken 500 feet under water.

There are less than 300 pure blooded Greenlanders.

India has 131,700 lepers according to the last census.

Last year 25,102 patents were applied for in Great Britain.

The new bridge at Omaha will have the longest swing-span in the world.

The only city in the world inhabited by men only is Maiwatchin, Mongolia.

A New York jury recently awarded a man six cents damages for the loss of his whiskers.

The amount of candy consumed in the United States every year has been estimated at 20,080 tons.

The apple has a larger proportion of phosphorus than any other fruit, and is, therefore, an excellent brain food.

There are about 1,700,000 Christians in India out of a population of 260,000,000. The Christians are mostly Roman Catholics.

There are in this country eighteen incorporated cremation societies, and during the past ten years about 3,000 cremations have taken place.

Short and Sweet.

The early cucumber catches the squirm.

A silk hat oftentimes covers a bald head.

Fashionable women are the mistakes of creation.

A man who is blunt in his ways may be sharp in his speech.

Price controls purchase. Even low shoes are in demand.

A cyclone is like a waiter. It carries everything before it.

A heavy man may be very light, especially when he's down.

Good clothes are to respectability what the frame is to a picture.

The slot machine to test your weight is one of the weights of the world.

It is as easy to tell a lie as it is to tell the truth, but it is not half so lonesome.

Foster's Prediction.

Weather Prophet Foster makes the following predictions:

My last bulletin gave forecasts of the storm wave to cross the continent from the 22d to the 25th, and the next will reach the Pacific coast about the 26th, cross the western mountains by close of 27th, the great central valleys from 28th to 30th and the eastern states about the 31st.

This disturbance will cause rains over large proportions of the United States, and prospects for good crops will largely increase. Not much rain immediately east of the Rockies.

The warm wave will cross the western mountains about the 26th, the great central valleys about the 28th and the eastern states about the 30th. The cool wave will cross the western mountains about the 29th, the great central valleys about the 31st and the eastern states about June 2.

June will be favorable to good crops, except immediately east of the Rockies. The first half of the month will average warmer than the last half, and altogether the whole month will average close to the general average temperature for June. The rainfall, as a general average for the United States, will be greater than usual.

RUMBLINGS OF THE STORM.

One Man Killed and Considerable Destruction by Hail.

If weather prophet Hicks prophesied a big storm for the 18th he hit it well; if he didn't, he missed it badly, for the storm of Friday was the hardest of this season and as hard as any we have had for years. In Bellefonte the rain came down in torrents until every street resembled a river. Some hail fell but not very much here.

In Pennsvalley the storm was just as terrific and was accompained with more hail. The lightning was very sharp and a son of Mr. John R. Lee, a farmer in Potter township, was struck and instantly killed. One arm was torn completely from his body and his one side was burned to a crisp. Mr. Lee and the unfortunate young man had been at work in a field when the storm came up and were on their way to shelter when the lightning flash came which killed the young man. The father was knocked down and considerably stunned but recovered.

Up Buffalo Run valley hail fell almost, if not entirely as large as hens eggs. The trainmen on the Bellefonte Central railroad brought a few specimens along down with them and when exhibited at this office by baggage master Undercoffer they were as large as walnuts. Considerable damage was done to the growing crops.

Down Nittany valley the storm was also terrific but we have not heard how great the damage may be in that locality.

Many of the wires in the telephone exchange in this place were burned out, requiring several hour's hard work to get them in operating shape again.

—The deposit of the borer may be prevented by applying to apple and peach trees the following compound composed by C. V. Riley: Potash lye, one pound; fish oil, three pints; soft water, two gallons. Dissolve the lye in the water, putting it over the fire and heating it to the boiling point. Then add the oil and boil the whole about two hours. Water is added to make up the evaporator by boiling, and the result will be twenty-five pounds of soft soap, which will make from 50 to 100 gallons of trunk wash, according to the amount of dilution. The application of the wash should be most thorough, so that it enters well into the crevices of the bark.

Special Notice.

The DAILY NEWS has engaged the services of F. S. Dunham who will act as solicitor and collector for this paper. He will ask you to subscribe, and advertise and give us your job work. All business entrusted to his care will receive prompt attention. If you want to subscribe for or advertise in the NEWS, strike Dunham wherever you see him.

PURE BLOOD

AND

Perfect Nutrition

is necessary for good health—To insure these you need a preparation of the juices of lean, raw meat, carefully selected, containing all the elements for making new, pure blood, and giving perfect nutrition to all the organs of the body.

That is what

BOVININE

The Original Raw Food

is—It is endorsed by 25,000 physicians as the most perfect condensed food known.

For sale by all druggists.

THE BOVININE CO., NEW YORK.

JOHNSON'S ANODYNE LINIMENT

UNLIKE ANY OTHER.

STRICTLY

For FAMILY Use.

Dropped on sugar suffering children love to take it. Every Mother should have it in the house, it quickly relieves and cures all aches and pains, asthma, bronchitis, colds, coughs, catarrh, cuts, chaps, chilblains, colic, cholera morbus, earache, headache, hooping cough, inflammation, la grippe, lameness, mumps, muscular soreness, neuralgia, nervous headache, rheumatism, bites, burns, bruises, strains, sprains, stings, swellings, stiff joints, sore throat, sore lungs, toothache, tonsilitis and wind colic.

Originated in 1810 by the late Dr A. Johnson, Family Physician. Its merit and excellence have satisfied everybody for nearly a century. All who use it are amazed at its wonderful power.

It is safe, soothing, satisfying; so say sick, sensitive sufferers. Used Internal and External.

The Doctor's signature and directions on every bottle. 32-pg'd Pamphlet free. Sold everywhere. Price, 25 cts. Six bottles, $5.00. I. S. JOHNSON & CO., Boston, Mass.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

ULCERS, CANCERS, SCROFULA, SALT RHEUM, RHEUMATISM, BLOOD POISON.

these and every kindred disease arising from impure blood successfully treated by that never-failing and best of all tonics and medicines,
